# LETTER To The Editor

February 7, 1967  
Forks, Washington  
Dear Sir:  
Our Society has been requested by several of our members in the Olympic Peninsula to express their and our views with regard to the recent classification of the cougar by the State Game Commission as a predator. It is our understanding that fear of this animal has been aroused in the Forks area to a certain extent, at least, by articles unfavorable to the cougar in the local press. For example, one of our members in Port Townsend sent us a clipping from a Port Angeles paper in which it is stated that in 1912 a certain community in Jefferson County "was so frightened by the boldness and number of cougars that it practically became an armed camp." This was followed by a list of incidents where cougars attacked people while walking in the woods. The writer failed to point out, however, that there was no Cougar Game Commission at that time. In talking with representatives of both the Federal Fish and Wildlife Service as well as the State Game Department, we have been advised that in the very extensive history of the cougar in the United States over many years there has not a half dozen cases among the hundreds investigated where it had been established that a cougar has made an unprovoked attack on a human being. The culprit has usually been a dog.

Another of our members in Clallam Bay, in reply to our question regarding the cougars in the Forks area, tells us: "... First I would like to say that I am in the business of farming and raise livestock. My parents started this farm in 1900, and ever since then we have raised cattle and pigs for a long time on our sheep. Not one time has a cougar killed a cow, or a calf, or a sheep in this place. ... Back in 1910 a neighbor

club lengthened their lead and when the final buzzer sounded the Spartans had won 44-41 and were one point closer to District.

Saturday evening the Bulldogs from North Mason came to Forks to be soundly defeated 66-44. The Spartans utilized the fast break opportunity to break the spirit of the Bulldogs. It was a fine team effort on the part of the local club. This weekend the Spartans defeated the Townsend 59 in an important contest. The Spartans will meet Saturday evening at the Forks Junior High basketball gymnasium to play the Sequim team. The Spartans took a 28-24 decision in their first game. The Spartans won the second quarter and the third quarter and led by 16 points. The Spartans led by 16 points in the fourth quarter and led by 16 points in the fourth quarter. The Spartans led by 16 points in the fourth quarter.

**DID YOU SAY FROM . . . FORKS**

They ask the town from whence I came and with a surging pride I name, from Forks, Washington—where wild game is plenty bound in forests of fame. Yes, we're from Forks, it's what we boast enthusiastically we add—it's best. The Cubs claim a come from the hard work; they're tough, need little rest.

The people there have courage raw; and loggers strong, who buck and saw. Forks is where you'll find the best, and bald eagles too—there's no flaw in the town we're from. The wall that stands around us now, their life in the trees of maple grandeur; tall, noble, serene, listen for their call.

The herd of elk on the Upper Hoh, the flocks from the glaciers flow, the settlers who were on the go, the hewed homesteads from the wild; thus slow but determination was their fate. These noble men and women we share amongst us now, they lived with care the forests wild! How did they dare!

They settled on the Dickey and cleared for cultivation their land. These men of strength lived, worked by hand to sign up the name of his military. They settled the Quillayute, too. And then one fall the wind riled blew, setting their clearing all a-strew they didn't worry, they laid work to do!

They canoped up river one day, reeling two rivers on the way. The forks in these rivers surely may be why that name is here to stay. The settlers moved up river till they found the valley beneath the hill. They settled here and with God's will Forks was founded—and is here still.

On up stream the brave settlers went to the Bogachiel they were sent. Then up the Hoh, their strength not spent, they packed a stove and pitched a tent. These men and women strong and brave are with us—whose memories we save, ponder, love. Protect from the grave never to die; their ideals we rave.

The name of Forks once spread with fame as nearby forest spread with flame. This fire great around our town came near destruction for woods and game. Once again the Forks people brave met this challenge; of themselves gave their strength, hard work, they did not care. Most left their homes with feelings suave.

The blowing wind in time did change the blowing path of flaming range. The brave men who fought this fire strange amongst flame, heat and sky turned orange. We gave heartfelt thanks. This is why we prefer Forks not to be dry!

The rivers are our life, the cry of steelbeaters who cast a try. We live in "God's country", we know for every hill dwells mother doe, with her fawn, alert, hiding low so 'twill not be found by it's foe. The bear who from trees remove bark, the cougar who stalks after dark, the Olympic National Park, the rainbow vivid, hung in an arc.

We know it rains and thunders strong no earthquakes though to put things wrong. No tornadoes or hurricanes long, but green, tranquil beauty, nature's song. It is hard for strangers to see why Forks means so very much to me they do not understand. Though we know those of Forks, their heart beats free!

Jane Wyman Smiley

Two motions for the Forks Friends of the Library will be presented. The first is to purchase a book exchange from the other libraries. Six hundred children's books will be exchanged. Also Mrs. Ron Thompson's art classes are exhibiting their pictures at the library to Simonton & Bupp.

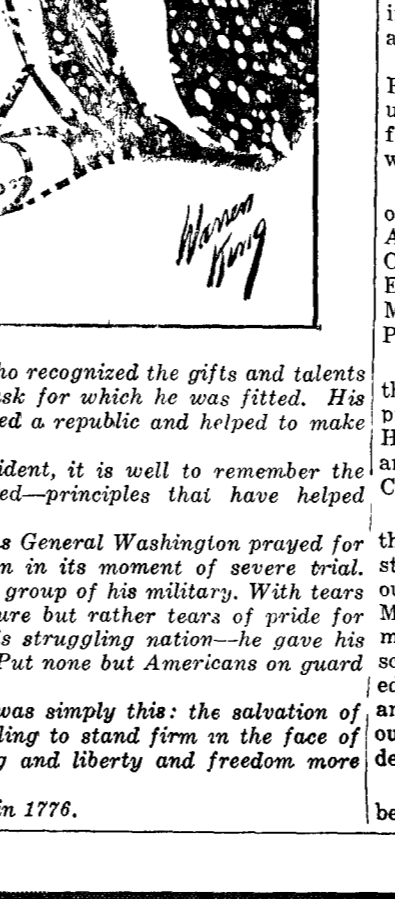

We need you as one of our friends of the library. Please join us on February 23 and help us plan for the many helpful projects that we undertake throughout the year.

A county-wide meeting of Friends of the Library was held in Port Angeles Feb. 8 at the new Clallam County Library building. Mrs. L. E. Malinen, president of Forks Memorial Library and Mrs. Oscar Peterson, Jr., vice-president, attended.

Harry Lydiard, president of the County Friends of the Library presided. Also present were Miss Hope Hodges, County Librarian and Miss Primrose Brodie, assistant County Librarian.

Several reported activities in their respective areas. Mrs. Malinen told of the Boy Scouts moving our library here all summer; of Mrs. Ivan Burr's conducting a summer reading program for grade school children; of greatly improved lighting system in our library and the giving of several books to our library by the Bogachiel Garden Club and by individuals.

The final planning meeting will be March 8 in Port Angeles.
