The LaPush Chiefs pulled out a 19-15 victory over the Pistons to win the West End Little League Championship in the seasons final action Friday.

In game one the Sonics came from behind to beat the Lakers in a double overtime game 15-13. Mike Hilt hit a free throw to send the game into overtime. Hilt hit a field goal in the first overtime but Jim Blair sent the game into the second overtime with two free-throws. Brian Nash scored on a rebound to give the Sonics the victory.

The Suns romped to victory in the second game downing the Celtics 20-11 to gain second place in the standings.

Russ Liles led the scoring with 6 points. Bruce Krieder hit 5 for the Celtics.

The Pistons put the pressure on LaPush as they came from behind to tie the game 10-10 early in the second half. The game was tied at 12-12 and 14-14 before the Chief's Harvey Eastman hit two field goals to put it out of reach. Eastman paced LaPush scoring with 12. SONICS (15)

### Short Comings

Forks Invitational Basketball Tournament will be held here this Saturday and Sunday.

Teams from Queets, Forks, LaPush, Neah Bay, Joyce, Tyee and Port Angeles will vie for the title.

Reports of a 28 pound steelhead caught by a plunker while fishing the Quillayute haven't been verified. Seems anyone catching a fish that big would weight it in somewhere or at least take a few pictures of it.

Alice's had a busy day during Saturday's grand opening celebration.

Big news item of the week--Forks merchants got by the weekend without a robbery.

Dog problem becomes heated issue in Forks. Citizens take problem to town council.

Received a box of Aplets & Cotlets from Jim Goodfellow, Wenatchee, Washington. He flew into Forks last week to do some steelhead fishing. Took him down to the forks of the Bogachiel and Sol Duc in the afternoon so he could wet a line. The next day he took a successful trip down the Hoh with one of the local guides.

Little Leagues provided some exciting basketball for fans Friday evening. The LaPush Chiefs clinched the title, but the thriller was a double overtime victory by the Sonics over the Lakers, 15-13.

The area around the vacant Richfield Station is rapidly becoming garbage row. Broken bottles, empty cartons and other litter are becoming more prevalent daily.

Mr. and Mrs. Bob Bent and daughter, left for Hawaii, March 12th, where they will make their new home.

## Clallam Bay Postmaster Aynsley Retires

Mr. & Mrs. Aynsley

James S. Aynsley, Postmaster of Clallam Bay for the past 19 years, was honored at a special retirement dinner at the Breakwater Inn, March 8, sponsored by the Clallam Bay-Seku Lions Club.

Mr. Emerson Lawrence, Postmaster of Port Angeles, presented Aynsley with his retirement certificate. This is the second retirement for Aynsley, having retired

from military service after 24 years active duty prior to joining the Postal Service.

County Commissioner, Thomas Mansfield, Forks, was the speaker for the evening.

Mr. Aynsley plans to attend the Lions International Convention in Tokyo, Japan this summer.

## Bing Smith Home Destroyed By Fire

Fire gutted the Bing Smith home in Forks Sunday afternoon.

The fire apparently started from wiring in a back bedroom and engulfed the interior of the house before anything could be saved.

"The room was ablaze and it was all I could do to get myself and daughter out of the house. A neighbor called the fire department," stated Bing Smith. "The firemen arrived quickly and I thought all we

### Board Agenda

The regular meeting of the Board of Directors Quillayute Valley Schools will be held tonight at 8 p.m.

Discussions will continue with the negotiation committee, building improvements and new school building progress report.

New business will cover teaching contracts for 1969-70, 1969-70 school calendar, age extensions requests for three teachers and a number of miscellaneous items.

would lose was a bedroom, but the fire spread throughout the house in a matter of minutes."

Mrs. Smith and the other children were not home at the time of the fire.

The Smiths had recently purchased some new furniture and appliances and completed some remodeling work. Everything was lost in the fire.

Smith commended the Forks Volunteer Fire Department for their efforts.

The Disaster Relief Committee of the Community Council has assisted the Smith family and the UGN contributed \$250.

The fire department answered two calls Thursday, one at approximately 11:30 a.m. at LaPush and a second call at approximately 2:30 p.m. at Big Johns on Highway 101.

The fire at LaPush was controlled by the Coast Guard before the fire truck arrived. The fire started near an oil barrel and burnt a section of the back porch of the home causing mostly smoke and water damage. The home is occupied by Sarah Hynes.

A second run was made Thursday to Big Johns. The fire started from a burn barrel behind the restaurant and spread through grass and brush. It was rapidly extinguished by firemen.

## Dog Problem Discussed By Council

The Town Council meeting Monday, March 10 was an active session with several people in attendance.

The dog problem was a key issue brought before the council by Mr. & Mrs. Melvin Ford. They were present to ask the council what could be done to control the number of dogs running around.

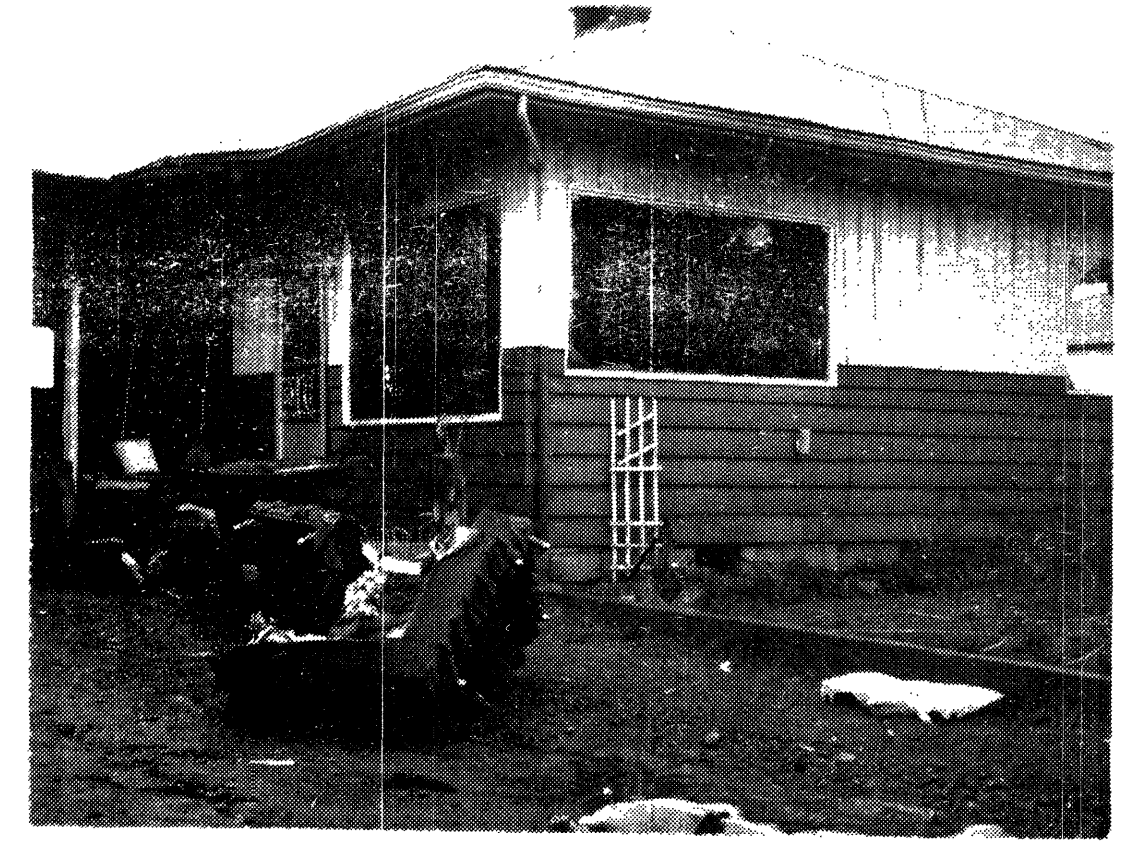

The problem was discussed at length and the clerk was instructed to call the attorney and see what the state and county laws were and what could be done to the Forks Ordinance to improve its enforcement.

The present ordinance dealing with dogs and licensing was passed January 1, 1947. It states a license is necessary for all dogs under ones immediate control or possession is necessary in the Town of Forks at a yearly license fee of \$2.

According to the ordinance, dogs without a license may be destroyed or disposed of by the town marshal. Vicious, dangerous or destructive dogs can be eliminated by order of the Police Judge.

The ordinance certainly does not cover dogs running in packs around town if they are licensed. If they have no license, according to the ordinance, they can be destroyed or disposed of.

The ordinance does not have jurisdiction outside the Town limits. The problem is two-fold, first, of the (can't col 1 page 3)

The outside looks unharmed, but partially burned furniture and shattered windows begin to tell of the \$18,000 loss in this fire.

## LETTER TO EDITOR DOGS!

Editor,  
The residential areas aren't the only places where stray or loose dogs constitute a problem.

Dogs head the list of ever-present problems at the theatre. These dogs arrive singly, in pairs, and depending on the season there can suddenly be a dozen of them. They block the steps, they try to crowd in the door when patrons are admitted, and they engage in wanton indiscretions that defy description. This is their show and they are the star performers. These dogs completely ignore the gentle persuasion of a stomped foot, but many will scurry in a flurry when the broom is brandished. However, the more defiant dogs do not know-tow to the broom and have turned on me as well as most of my employees and chased us right back in the theatre. The victory is always theirs.

Picking up these dogs and transporting them to the pound in P. A. will solve nothing as they will be bailed out, licensed and free to roam the streets again.

Nothing less than a strictly enforced leash law is going to solve this problem. I am weary of brooming dogs away from the theatre; and I am also weary of silently suffering the sniffing degree while 1 or 2 dogs decide whether I can enter the grocers, the pharmacy, the post office, or any other business I wish to patronize.

When a dog can be such a wonderful pet--why allow it to become a pest?

At the rate the problem is growing now--the theatre will soon go to the dogs and I'll have distemper!

## VALUE

Editor,

Those of us who grew up before World War I will remember that we were taught the values of foreign coins as a part of arithmetic. As I remember the mark, then the coin of Germany and Austria approximated our two-bits and four equaled a dollar. People also in America were familiar with gold coins. The \$5.00 gold, also the \$10. and \$20. The five gold was a small coin and easily confused with the small change except of course, that the copper penny always tarnished and all gold coins remained bright.

After War I and until 1929, America lived thru a period of prosperity. If we really go back, it began about 1914, when War I was kindied in Europe and war efforts and trade naturally spilled in our direction and upped our economy, and

## TAKE SAFETY HOME!

**News Note:  
Industrial workers are safer on than off the job. Let's be safe everywhere.**

## CARE ENOUGH TO BE CAREFUL

**Question: What's the best way to do your spring cleaning?**

**Answer: Do it very carefully!**

**There is a message for all of us in one of industry's vital and continuing programs: Safety Off the Job.**

Since World War II, accidents in industry have been reduced by half. That is a remarkable record which is the result of the emphasis which companies always give to safety at work. Now industry is also increasing its efforts to promote better safety habits outside the home. This is because, according to a pamphlet published by the National Association of Manufacturers, deaths and injuries to employees outside of working hours represented an economic loss of a startling \$8 billion in 1966, not to mention the grief and anguish involved. Traffic accounts for the largest percentage of non-work accidents. Falls, many of them around the home, are the second greatest cause.

**Company programs boil down to two essentials: safe equipment and encouraging a positive attitude towards safety on the part of the workers. Safe Equipment and Positive Attitude—two points we all should remember.**

continued while we became involved, and after the allied victory, ending not until ten years later (1929). How we bragged. Meanwhile, Europe especially the defeated Germans and their allies went into the doldrums and Russia became confirmed in the communitistic ideologies. An inflation beyond all reason made money worth less than the paper it was printed on and it was this that made Hitler and Mussolini acceptable. Anything for stability and the return of national self respect! Once in those days I saw a movie that illustrated the matter of superinflation quite dramatically. The auctioneer was selling a decrepit old race horse and the bids went up and up finally reaching half a million marks. The scene presumably was in Austria and of course suffered from the same inflation. About the time bidding on the old

nag had passed the three quarter mill on mark, an American tourist spoke up. "How ridiculous," he cried, "I wouldn't pay \$75.00 for that old animal." The auctioneer instantly lit up. "Did you say \$75.00, seventy-five American dollars?" Sold, sold to the American for \$75.00 and here is your horse. "Take him! Take him!"

But for the economic disassociations of Europe there probably would have been no World War II, no Hitler and none of the following awfulness and injustices--then again who knows? The human animal is entirely unpredictable.

When I think back to the period preceeding our 1929 depression and our general attitude of today, I cannot help but worry.

Are we really as safe as the general public thinks or are we building up for another economic disaster. It matters little whether the form

## Trend Of The Times

The wholesale logging of old growth cedar for the export market has caused alarm within the circle of domestic cedar using industries.

Some of the giant cedar logs being trucked from the area come from cedar trees as much as 1,000 years in age. To reforest this tree would be highly uneconomical. To obtain a log suitable for the split shake market would take from 300 to 500 years of growth.

Public and private timber plantations do not plant cedar in this area because of the length of time necessary for the tree to reach a marketable size, however, it does reseed itself throughout the area.

A cedar shows an approximate growth in height from 6 inches to 1 ft. per year, as compared to hemlock and fir that grow from 3 to 4 feet per year. State timber plantations are seeking a marketable tree within 50 to 80 years, a far cry from 300 years for a good shake cedar.

Buckle up your belts men, the day of the small operation is rapidly coming to an end in our great society. You helped create America, but it seems evident by the trends in American Government it no longer sees a need for you.

The independent shake mills surrounding this community, and others throughout the Peninsula, will cease to exist in the future because of the "bigger get bigger" concept of the American Economy. Once the private logger purchased timber, logged it and sold it on the open market. Today he is a captive of the larger firms.

Supply and demand dictates to the logging world and cedar is here today and faced with a great domestic and export demand. It's just a trend of the times rapidly depleting a product not long for this earth.

it takes is a run away inflation or an economy freezing depression, both are equally undesirable and unless something is done to restore the balance and stop our ever growing inflation, something is bound to happen.

Inflation is a tax on everybody but an especially vicious tax on those least able to bear it, for it is not a graduated tax but one levied straight across the board, so it hits the low income stratum most seriously for what they receive must first of all pay for essential needs where as the comfortably employed and high income person usually has resources that reach more adequately to provide comforts too.

In America the hiatus between the indigent and those of adequate income is daily widening. Our ever increasing National Debt and almost universal private indebtedness represents another danger to which we have become so accustomed that we hardly regard it. People soon stop fearing a caged tiger especially those who have never seen one released from his cage.

It takes so little some-

times to spring a lock, so little carelessness to leave a lock improperly secured.

Unless we can learn to live within our national tax income and unless we can slowly return to governmental solvency a crash is inevitable. And still Unions clamor for higher and higher wages--corporations raise prices to compensate. Public officials pad their salaries and every year some more billions are added to State and National Debt and 3/4 of the population lives on a buy now pay later economy.

If the time should come when for some reason Tom can't pay Dick and Dick can't pay Harry and Harry owes Tom, why, what would happen? What is happening around Los Angeles to all those hillside houses? They stand firm, so firm until enough dirt washes out and then!! It may not come in my time, for that is expected short, but my children and grandchildren had best stand prepared for the road we are so confidently traveling cannot go on forever nor can the house founded on debt and inflation remain secure.

## Sports Wanderings

Professional basketball watchers were probably shocked, especially Celtic fans, if they tuned into the game of the week Sunday between the Boston Celtics and Los Angeles Lakers.

The Lakers were in the process of proving that the pros can play defensive basketball. The Celtics were forced to shoot from the outside as the Lakers cutoff the inside route to the basket and stopped the Celtics, 108-73.

At one point, the Lakers held a 91-52 advantage. Super stars, Elgin Baylor and Jerry West, were on the bench the final 10 minutes.

Congratulations are extended to Bob Swerin, City Association Tournam ent Manager, for the efforts in running an excellent tournament this year.

Congratulations to Frank Goos, 2nd in singles, all events champ, member of the winning team and high scratch 30 score; to Al Genson singles champ; to Claude Clark-Duke Streeter, doubles champs; to Darrell Thomas high 10-246 and high scratch all events 1762; to Darigold, team champs.

Jerry Price was the outstanding selection to the A League All Opponent Team. Other first team selections were: Al Millet, Sequim, Mark Prill, Port Townsend, John Weeks, Lakeside and Drew Landrum, North Mason.

Larry Baker was a top selection on the second five. Rich Liles and John Spoelstra were given honorable mention.

## Sunset Highlites

By Fred Jarvis

Some weekend! Don't know what it is about bowling a tournament that makes me so pooped! Unless it was getting home in the wee hours of the morning after Mother and I had tripped the light fantastic, almost all night.

Should do that more often as I bowled not too bad in the team event, 625. New face behind the lunch counter, or is it an old face? Gwen Genson is working? part time now as waitress at the alley. Now I know why they are called that, you wait on them to wait on you, Ha! All kidding aside, she's doing a fine job.

Some darn good bowling this last week as the men were getting ready for the City Tournament and the women were probably getting ready for their state tournament.

Tues. Afternoon had Janet Joseph with 191 and Barbara Windle's 500 on top.

Florence Ninke made her initial appearance in this column by tossing a neat 204 in the Powder Puff League. Margaret Windle had the top series, a 525.

Oops! Forgot the Sunset League again. Fred Jarvis had a 241-622, Duke Streeter, 228-619, Darrell Thomas a 224, and Frank LaGambina a 232-595.

Leta Rondeau and Billie Bryan both had 174 Hi 10 with Leta taking Hi 30 of 489 in the Hoot Owl League.

Vagabond is out in front of the Thursday Nite Women with Pay and Save, Coast to Coast and Forks State Bank all within three points. Gwen Genson had 193, Yvonne Kettel a 529, and Jean Streeter a 191-518.

Larry Keeney tossed his first big game and series. He had a 230 and 522, all this with a 126 average. A Century patch for you, Larry.

Claude Clark rattled the pins for a 238-643. Could have used that Sat. and Sun., Claude.

John "Retired" Nagel bowled like crazy in Early Fri. Mixed, Had a 223-234 on his way to a 641 series. Darrell Thomas ripped out a 248-612. Nice going, fellas. Sally Nagel, not to be out done, topped the women with 198-541, and then subbing in the Late Mixed, came right back with a 190-530. Helen Smith and Joyce Blair both had a 185.

Big Al Genson matched John's 234 and had a high series of 646. Wow! Look out for these two in the tournament. George Richardson did himself proud with a 213-604.

Sat. Nite Monte Carlo, singles and doubles were bowled, with Big Al taking the singles with a 669. Duke Streeter and Claude Clark took the pairs with a 1221.

Darigold, led by Frank Goos' 650 won the team event with 3044, with John's Motors at 3014 and Brager Log at 3011.

Frank's 650 won added money, as did Darrell Thomas' 246.

John had an 1895 all events handicap, but was beaten out by Frank's 1919. Darrell won all events scratch with 1762.

Lonnie Hamby shot a 213 in Sunday's Mixed and Don Kettel a 556. Kathy Hamby had a 509 and Billie Bryan a 201.

Art Ritch rolled 214 as the Lions Club split two with league-leading Brager Log and Stan Four's 565 helped Spoelstra Bros. Log to a four-point win over Lake Pleasant Grocery.

## Ronnie Lee Sego Sentenced On Murder Charge

Ronnie Lee Sego, 29, of Forks, was sentenced to a minimum term of 10 years in prison by Judge Joseph H. Johnston, on a second degree murder charge, in Clallam County Superior Court last week.

Sego was originally charged with first degree murder in the shooting death of his wife, Betty Ann, in the couples Forks apartment January 7. Prosecuting Attorney Nathan G. Richardson, filed amended information February 26, charging Sego with second degree murder instead.

Sego also entered guilty pleas to charges of robbery and escape from the Clallam County Jail.

Sego shot his wife and later robbed the Hang Up Tavern in Forks prior to leading law enforcement officers on a chase south from Forks January 7.

While waiting trial, Sego and a second inmate, Howard G. Leavitt, 27, escaped from the Clallam County Jail Wednesday, March 5.

The escapees were captured March 6 in Seattle by Seattle Police Officers. Judge Johnston sentenced Sego to a minimum of five years in prison on the robbery charge and a maximum of 10 years in prison for escape.

After hearing comments from Sego's attorney, Richard Nichel, and Richardson, Judge Johnston ordered the murder and robbery sentences to run concurrently and the sentence on the escape charge to be served after the sentences on the other charges had been served.

Sego was taken to the State Correction Center at Shelton for testing and classification, then sent to the state prison at Walla Walla or the Monroe Reformatory at Monroe.

Contributions may be made by leaving clothing at the home of Mrs. Gordon Otos, next to the Post Office, or by calling 374-5278 or 374-6628 for pick-up.

# Meditation

By Wm. E. Cross

PEACE!!! The great desire and heart-cry of our generation is for peace! Millions of dollars are spent and thousands of man-hours are expended in trying to find peace. . . Blood is being spilled; lives lost; bodies are mutilated; homes and families are broken; all with a sincere desire on the part of most people to know and enjoy peace. . . A "new" generation is arising that would indicate they desire peace more than anything else; so much so, in fact, that they are willing to make any compromise, regardless of the ultimate cost to society, in order to bring about such peace.

Peace is a complex, multi-sided and often misunderstood experience. There is a peace which simply means that nations are not at war with each other; that racism is no longer a disturbing factor; that the police have the local situation in hand, etc. However, none of these situations speak of true peace nor can they give assurance of lasting peace.

Real and lasting peace can come only through a personal relationship with the Prince of Peace, the Lord Jesus Christ. At His annunciation the heavenly hosts sang, "Peace on earth"!! Jesus said to His disciples: "Peace I leave with you, My peace I give unto you; not as the world giveth, give I unto you. Let not your heart be troubled, neither let it be afraid."

There are three facets of heavenly peace, namely: peace with God; peace from God; and the peace of God. If we, by grace through faith have received Jesus Christ as our personal Saviour from sin, then have we made "peace with God". As a result of a right relationship with God through His Son we receive from Him that peace which only He can give. Having made peace with God and having received "peace from God" we can know and enjoy in our daily lives the very rich experience of living in the "peace of God". This is peace, the Bible tells us, which "passes all understanding". Then and then only can we say with the Psalmist: "I will both lay me down in peace and sleep." This is resting in Heavenly peace!

## Sleep in Heavenly Peace

Peace is a baby sleeping. Peace is a walk in God's forests. Peace is gentle Love for one another. Great word . . . Peace! We see it in the newspapers, on T.V., in magazines beside horror pictures of war and carnage. But, Peace is not something outside ourselves. It is within. It is the quiet calmness of mind and soul, unperturbed, undismayed.

But it is difficult to acquire this frame of mind, this elusive state of soul, this tranquil spirit. To achieve it we need guidance and help, and therefore we turn to our Church. Here, one sets problems in order, sees difficulties in perspective and consults with one's Creator. Peace of heart is a two-way street—our way to God, and His way to us.

Matthew 5:38-42	Matthew 5:43-48	Exodus 21:1-11	Philomen 12	Exodus 21:12-27	Romans 12	Exodus 23:1-9

**Hometown**

**Education**

As Peninsula College offers more courses in towns located throughout Clallam and Jefferson counties, a new idea is beginning to catch on - a college education in your own hometown wherever you may live.

Tom Hostetter, director of the evening division at Peninsula College, said, "Many of the students taking my speech course at Port Townsend this quarter, have the ultimate goal of graduation from Peninsula College. . . We are offering ten courses at Port Townsend this quarter on different evenings so it's possible for a student to pick up two or three courses toward graduation during this quarter alone."

As a community college, Peninsula is expected to serve educational needs in Clallam and Jefferson counties. Currently, the College is offering courses in Forks, Meah Bay, LaPush and Port Townsend, in addition to the offerings at the campus in Port Angeles.

"Eventually a student would probably have to commute to Port Angeles for a couple quarters to pick up the necessary credits for graduation," Hostetter said.

"But they can make a lot of headway in their own hometown. And if the student wanted a four-year degree from one of the universities, they could take additional credits through correspondence courses offered by the four-year institutions. Once again, the student could complete a great deal of his college education at home."

For more information, call Tom Hostetter at the College, 482-9271.

The old Huelshon cabin still stands boldly in a rain forest atmosphere on the upper Hoh River. Construction of this homestead was started in 1856 by Herman and Elizabeth Huelshon. After the death of Herman Huelshon in 1896, Elizabeth completed the structure for herself and her four children. Wheat and rye once grew here where weeds now stand. Salmon were taken from the white waters of the Hoh and elk were shot near the cabin. The deer and elk still feed here and salmon still run the river. The wheat and rye have decayed with the years. This old homestead is silent now where only memories remain.
