**RAZOR CLAM BEACHES OPEN**

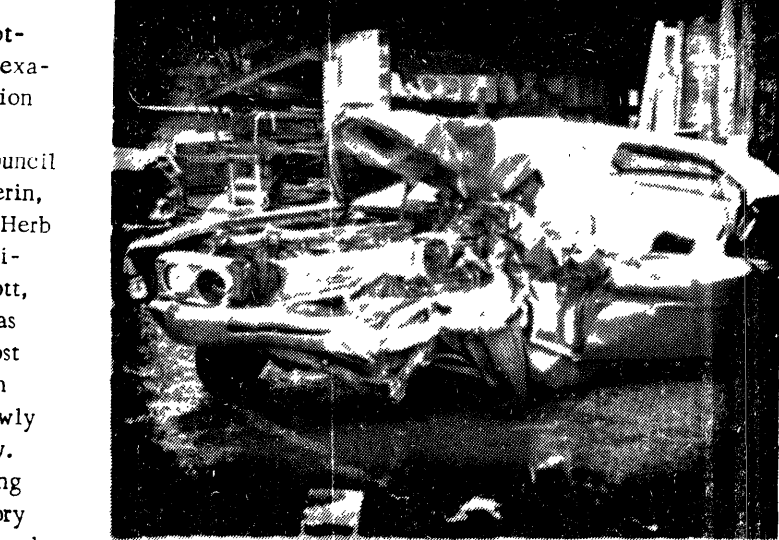

Clam diggers were reminded today by the Washington State Department of Fisheries that all razor clam beaches are now open and will remain open for sport digging on a 24-hour basis for the rest of this year.

Long Beach has been closed to razor clam digging since June 30 and all other beaches have been closed since July 15, to minimize wastage and the taking of small clams.

Fisheries Director Thor C. Tollefson said digging conditions at present can only be classified as fair. Beaches are still in summer condition, he said, with many hard bar areas and deep lagoons that will hamper digging efforts until a good storm flattens the beach out and softens up the sand.

Most of the good clam tides will occur at night for the rest of the season.

"This season is being opened in order to comply with the U.S. Supreme Court order allowing Indians to fish on the usual and accustomed grounds," said Tollefson.

The two tribes may fish with gill nets and set nets on the Hoh and Quillayute Rivers.

The Quillayute River will be open from 200 yards below the mouth of the Sol Duc River to the National Park boundary. The Hoh River will be open from the U.S. Highway 101 bridge downstream to the reservation boundary.

# Editorial . . .

Fortunately the people in the area's annex "bet on the come", so to speak and came into the city. The vote, needless to day, was very close. This does not indicate how people really feel.

A few people who have lived in these areas a long time never voted because they felt their vote had no significance. They were shown, as were a lot of other people, that they were wrong.

If nothing else comes from this election other than the fact that everyone has an obligation to cast his ballot, then it was an extremely important election.

The new mayor will be selected by a write-in ballot in November. Everyone in Forks, including the new areas, should be looking for a man who has the foresight and experience to do the job we all expect from the mayor. Many are now available. Let's start looking now.

## Packers 28, Lions 13

After a very lackluster first half, the Forks Packers showed strength offensively and defensively and defeated the Sequim Lions at Sequim, Sunday afternoon, 28-13.

The Packers on the running of Rusty Roberts, and Kenny Olson, hit the scoreboard first after receiving the opening kick-off. Roberts plunged the final four yards behind the blocking of Brian Nash, Bill Russell and Harvey Eastman. The P. A. T., by Rick Hurn was good. Sequim marched after the kick-off and scored moments later on a two yard dive. In the second quarter Sequim scored on a 62 yard run mak-

ing the score 13-7. Sequim at half-time.

After some defensive adjustments at half-time, Forks came back the second half and completely controlled the game.

Olson scored in the third quarter on a one yard run and Roberts P. A. T. run was good. Early in the fourth quarter, Roberts went through a good hole by Nash and Eastman, veered to the outside, and rambled 72 yards to paydirt. Again Hurn ran the P. A. T. The final Forks touchdown was scored by Olson on an eight yard run. Roberts got the P. A. T., making the final score 28-13. Defensively, Roberts, Eastman, Runt Blankenship, and Rocky Golfelt stood out for Forks.

## Use Insecticide Strips With Care

Insecticide strips containing DDVP should not be hung in rooms where infants or ill and aged are confined, according to the U. S. Department of Agriculture.

Marketed under several brands, the strips are designed to be hung in a room where the insecticide vapors continuously kill flying insects.

To provide greater protection to consumers, the USDA's Agricultural Research Service requires that the following statement of caution be included on labels of the insecticide strips marketed after February, 1969: "Do not use in nurseries or rooms where infants, will or aged persons are confined."

The USDA, which has determined that substantial supplies of the strips still available to the public do not carry the additional caution statement, issues the warning to protect consumers who have products in their possession or who obtain a supply without the caution statement.

DDVP is an abbreviated term for the insecticide Vapona (R) containing 2,2 dichlorovinyl dimethyl phosphate.

## SPARTANS OPEN WITH 56-0 WIN

The Fighting Spartans of Forks opened their 1969 football season by delighting a home crowd with a 56 to 0 trouncing of the Moclips Hyaks last Friday evening.

The crisp fall evening was a beautiful night for football with just a slight trace of rain falling early in the ball game.

The Spartans did very little wrong as the offense moved the ball well and the defensive unit held the Hyaks to 11 yards total offense.

Moclips was unable to generate an offense as they crossed into Spartan ground twice during the game and these two threats were the result of a penalty and the lone Hyak interception of a Spartan pass.

The first time Forks handled the ball they moved 47 yards in four plays to paydirt. Doug Holz raced in on a 59 yard gallop with key blocks from John Richards, Dave Beebe and John Dahlgren. Three minutes later senior Pete Dahlgren drove the middle from a yard out for a 12 to 0 lead. Both point after touchdown attempts failed.

In the second quarter letter-man quarterback Don Hutt put the ball in the air and the Spartans rolled to a 20 to 0 lead. Hutt hit split end Bruce Allen with a four yard look-in for a score and hit big Rich Liles with a pass on the conversion.

Harold Reichtold broke away for three long touchdown runs, one of which was 70 yards from scrimmage. Jim Blair and Kent Thomas made the offense click with key blocks and timely

passing. The Spartans rolled to a 39 to 6 lead.

Near the end of the quarter senior leaders Dave Beebe and John Dahlgren

did a good job of leadership. Liles, Schumack, Beebe and Dahlgren were all credited with eight unassisted tackles and numerous assists.

Offensively Hutt with 11 completions in 20 attempts for 167 yds. did a remarkable job in his first full

quarter quickly with Hutt scoring from one yard out after a 68 yard kick-off march that covered eight plays. Darrell Beebe, a good looking young runner, added the conversion for a 49 to 0 lead.

Danny Payne took over at quarter-back midway through the third quarter and did a capable job despite several poor exchanges in the backfield.

He moved the Spartans 41 yards in 7 plays before Doug Holz squirreled in from 11 yards out. John Schumack added the two point after on a quick flat pass that had many asking where he came from. Schumack converted on a tackle eligible play.

In the final quarter Spartan senior and three year starting center, Dave Beebe found some glory by running at the full-back position. Dave scored on a yard plunge after lugging it five yards on the previous play. The final touchdown was by tight end Rich Liles on a Don Hutt aerial covering four yards.

Coach Roy McDonald thought the Spartan team effort was good and certain individuals' performance were outstanding for an opening game. The defensive team was given a great

fighting spirit and they were

pleased with the result of the game.

By Pastor William Cross

In Romans 1:20, we read: "For since the beginning of the world the invisible attributes of God, for example, His eternal power and Divinity, have been plainly discernable through things which He has made and which are commonly seen and known." This tells us that the one, true God is knowable!! In Isaiah 40:28, this question is asked: "Hast thou not known? Hast thou not heard, that the everlasting God, the LORD, the Creator of the ends of the earth, fainteth not, neither is weary? there is no searching of His understanding."

Jesus said, as recorded in John 14:6, "I am the Way, the Truth and the Life; no man cometh unto the Father, but by Me." I repeat, "God IS knowable", but only through His Son, the Lord Jesus Christ.

Today, multitudes of men have many and varying ideas about God: where is He? Is He a person? What does He look like? Has any one ever seen Him? Is He truly a living God? Can He be revealed through an image or an idol? God has given the answer to these questions and

many more and these answers are to be found in His Word, the Bible, God's revelation of Himself to man. Not only has He revealed Himself in His written Word but He is also revealed in His living word, the Lord Jesus Christ.

Jesus said, John 14:1, "Let not your heart be troubled: ye believe in God, believe also in Me." Proverbs 14:12, tells us that, "There is a way that seemeth right unto a man, but the end thereof are the ways of death." The ministry of the Bible-believing, Bible-teaching Church is primarily, to make known the one, true, living God as He has revealed Himself through Jesus Christ. We must remember that what really counts is not our "idea" of God but rather what God has said and revealed of Himself in Christ. Another important truth to remember is that, though men are not knowingly searching for the true God, that wonderful, loving, gracious and merciful God is seeking to reveal Himself unto men. So great is His desire in fact, that "He gave His only begotten Son, that whosoever believeth in Him, should not perish but have everlasting life."

To know Jesus Christ is to know God!!! God is a living, loving person; NOT an "idea"!!!

**ONE IDEA OF GOD**

*At the entrance to the valley where they buried their kings an ancient and industrious people carried the Sphinx.*

*This was their idea of God: the body of a lion, suggesting power . . . the face of a man, suggesting personality . . . the whole amazing image suggesting their belief in a MIGHTY deity who could be KNOWN.*

*Today, in our churches, we worship God as Jesus Christ revealed Him: almighty but merciful . . . knowing and eager to be known . . . loving man and seeking man's love . . . saving all who believe in their Saviour — His Son!*

*Can the ancient Sphinx have any significance for men and women like ourselves who have before us the Gospel and example of Christ?*

*Only this: As long as it remains, the awesome Sphinx will remind us of man's search for God. Just as our own church bells remind us of our opportunity to know, love, and serve Him!*

**Deadly Spider In Area**

The National Safety Council warns that the Brown Recluse spider, for years prevalent only in the south, is spreading northward and is already in the heart of the Midwest.

The Brown Recluse can survive in temperatures ranging from 40 degrees to 110, and, in addition, its natural habitat is indoor . . . hidden away in closets, shoes and apparel unused for long periods of time.

It is believed vacationers are partly responsible for the spread, as the Brown Recluse likes to hide in dark places such as packed clothes, bed rolls or folded blankets. The Brown Recluse may produce as many as 500 fertile eggs a year.

The National Safety Council stresses that the Brown Recluse spider has a bite more deadly than that of the Black Widow spider. Also, that volume for volume, its venom is more potent than that of a rattlesnake.

The bite of the Brown Recluse spider is usually not felt as much as that of a mild sting. But between two and eight hours later, pain begins, followed by swelling, blistering and maybe even hemorrhage. The ulceration takes months to heal, leaving a scar that may require skin grafting.

The National Safety Council says the Brown Recluse is about a half-inch long slightly smaller than the Black Widow. It has an oval body with four legs on each of the thorax. The Brown Recluse varies in color from light tan to dark chocolate brown. The one distinguishing mark that sets the Brown Recluse apart from other brown spiders is a dark, violin-shaped band over the body.

Authorities say the Brown Recluse will not bite unless molested, or if its mouth becomes accidentally pressed against the skin of a person. If one is found on the skin, brush it away gently, never swat or let it walk away on its own. Then destroy it.

Finally, if one Brown Recluse is found in the house or apartment, begin a thorough, but cautious search, for the spider may have a family.

There have been several reports of people being bitten by this spider in Forks and the surrounding area. Although none have been fatal the treatment required is both painful and expensive.

Do I Qualify? Questions Answered by the Health Insurance Institute, 277 Park Ave., N.Y. N.Y. 10017

Q. I was operated on a couple of years ago for cancer and am very grateful that I apparently am cured. Now I'm wondering if this history will hinder me in getting a health insurance policy.

A. It's quite likely that you're either insurable now, or will be insurable. Today, over 100 insurance companies have policies that offer protection to persons with a variety of ailments including diabetes, heart disease, and even those who formerly had cancer.

You may, however, have to wait out a certain "recovery" time. Other factors in assessing your insurability would be the type of cancer, where it was located, and the length of time it has not reappeared. If you are interested in a policy now, check with your insurance man. He can obtain the information for you.

# GRAVEYARD FROM THE PAST

By Mrs. Robert (Rocky) Hinkle

Sheltered beneath the gigantic evergreens, garnished with wild flowers, ferns and cradled in the weeping arms of alder trees, lies the final resting place of the early pioneers who struggled to tame the Olympic Peninsula. This graveyard is one of the many scattered throughout the area. Its history is probably very similar to the others, although learning about it draws us personally into the past history and heritage of our community.

In the early days travel was difficult due to the unpredictable weather and road conditions. Many homesteads had family plots located on their property but as time went on community graveyards were formed. This is one of those. Very little material can be obtained so the dates aren't completely accurate. It is believed this graveyard was started in the late 1800's to early 1900's. It is located near the site of the old wagon trail road, on which supplies were freighted to the Forks area.

C.J. Snider donated five acres of land for the graveyard and the people of the community cleared it.

Mrs. Charles Welker was the registrar of vital statistics and gave the release for burial.

The first doctors in Clallam Bay were Dr. Templeton, Dr. Keoning, and Dr. Baker.

Services were held in the old church built over the hill in Clallam Bay. Ministers from Forks or Neah Bay officiated until Clallam Bay secured a minister.

There are about thirty-one people buried here. Wooden markers were mainly used and time and weather have taken their toll. There are many resting here who were taken by epidemics, some from logging camps and some from ships, which brought supplies. Forrest Tuttle and William Raymond dug many graves and buried different ones of those who had died. Forrest Tuttle found two fishermen who had drowned near the mouth of the Clallam River. They were buried here and their names were later obtained.

Libbey O'Brian, a relative of Mrs. Henry Merideth of Clallam Bay, made her way to this area in the late 1800's. She was the wife of the newspaper publisher in Clallam. She died in 1907. A iron fence and cement headstone can still be seen, marking her final resting place.

Mrs. Christina Tuttle Meyers, a early pioneer of the community came here in 1894. She was the grandmother of Lillian Ardit, a Clallam resident. Her funeral is vividly remembered by Lillian's mother.

Reverend Davis of Forks, officiated at the service of Christina Tuttle Meyers.

mother of Forrest Tuttle, "Grandma" died in 1921. Mrs. Alden, from the Ship Point Lighthouse, and Mr. Charles Snider built her coffin. The services were held in the old church. Charles Welker cleared the old county horse-and-buggy road so a sled could be used to carry Grandma to her final resting place.

Emma Tuttle Gramer, Helen Raymond, Marjorie Easmussen and Lillian Tuttle Ardit and other small children made bouquets from wild flowers and placed them on her grave, thus bidding a final good-bye.

One summer day in 1920 two thirteen-year-old girls were walking the spit in Clallam Bay. Dorothy James, a young Indian girl and Ada McLean hadn't noticed the tide coming in. Ada's mother, who's kitchen a window faced the river saw Ada floating face down in the water. Her screams brought Mr. Tuttle to her aid and he pulled Ada to the beach with a branch, not knowing Dorothy James was also in the river. Ada was saved but Dorothy was lost. Dorothy is now resting here.

Also buried here is the baby daughter of Mr. and Mrs. Ernest Hutchinson, an Iverson baby, a Sands relative, Harry Taylor's baby, Mrs. McFarland, a bride of a few days and many more.

Charlie, Wallace, a uncle of Isolene Gagnon is also buried here. Charley was a peddler

Miss Debbie Loushin celebrated her 9th birthday recently with a trip to Sol Duc Hot Springs with three of her girl friends, Cheryl Leavitt, Susan Musick and Dixie Riebe. Also attending were Debbie's sisters, Brenda and Pamela and their parents, Mr. and Mrs. Richard Loushin. After a day of swimming they enjoyed a picnic lunch and the girls all stayed overnight at Debbie's house.

Mr. and Mrs. John Merritt returned home on Tuesday of last week after spending a delightful week at the home of her son and daughter-in-law, Mr. and Mrs. Ken Lobdell in Priest River, Idaho. The Lobdells' two sons, Brian and David, who are Senior and Junior, respectively, at Idaho University, Moscow, were up over the weekend, the first time the Merritts had seen them since the Christmas week of 1966.

# Yes, YOU CAN!

You can make hearty Chef's Salad in minutes that will "stick to the ribs" for hours. This makes a fine main dish for luncheon or supper, and with a scrumptious hot dessert, adds up to a really fancy meal fit for last-minute guests who drop in.

1. Wash and crisp one large head of iceberg lettuce, and shred well. Add one cup of julienne-cut cooked chicken, one cup of julienne-cut cooked tongue, ready-cooked meats in cans are a convenience for this, one cup of julienne-cut Swiss cheese, and one tablespoon of capers. Pour one-half cup of French dressing over the salad, and toss lightly to mix well. Serve six.

2. Now you can serve your favorite drinks fast with cocktails that come in chill and serve cans. There are nine varieties--martinis, whiskey sours, daiquiris, margaritas, vodka gimlets, and martinis, manitas, manhattan and screwdrivers. Each 8-ounce can of Club Cocktails contain three drinks which, when chilled, are ready to serve. No need to add ice.

3. Here's how to make the dessert, a Hot Lemon Souffle, everyone's favorite. Beat six egg yolks until thick. Add 1 1/2 cups of sugar, slowly, beating constantly. Add three table-

spoons of lemon juice, and grind the rind of one lemon and add it to the mixture, and one-half teaspoon of salt. Beat the egg white until stiff, and fold into the first mixture. Pile into a buttered souffle dish, and set the dish in hot water and bake 20 minutes in a 375° oven. Serve at once. While the dessert is baking open a can of rolls and pop them into the oven to bake also. There's nothing more appetizing with a salad than hot rolls.
