# Forks Forum

VOLUME 64 FORKS FORUM, THURSDAY, DECEMBER 20, 1974 PAGE 1 PRICE 15¢ NUMBER 18

Dan Shantz received the KVAC Spartan Football Award.

**Spartans Lose To Sequim 69-56**  
It was a cool, wet evening in Forks Friday night as the Forks Spartans were celebrating the Wolves from Sequim.  
It was not to stay... long inside Spartans gym, though, as the battle between the Wolves and the Spartans was as fierce as the storm outside.  
The game was much closer than the score indicates. The Wolves led to hold on to preserve their lead, as the Spartans gnawed away at the Wolves' margin throughout the second half.  
Sequim led at the halfway mark 38-28, and 50-46 at the close of the third quarter.  
Early in the fourth quarter, the Spartans tied the score at 50-50 and the Wolves were being caught with their hands down.  
The Wolves' Coach Hill Martin called for a time out, and the Sequim bench went into a score defense that stopped the Spartans' penetration into the middle and caused several costly run-outs.  
The Wolves kept increasing their lead as the Spartans' mistakes put their drive deeper in the hole.  
Pat Davis led all scorers with 22 points, and Joe Wheeler pumped in

## School Board Meeting Minutes

The regular meeting of the Board of Directors of Clallam Valley School District No. 402 was held December 17, 1974 in the Intermediate School Multipurpose Room.  
Members present: Fred Fletcher, Myron Simmons, Robert Pelikan, Larry Klain, Alvert: Ted Eastman.  
The first order of business was to elect a new board chairman, and Mr. Simmons was unanimously elected board chairman for the 1975 year. Mr. Klain was elected vice-chairman, and Mr. Pelikan was elected legislative representative.  
Mr. Klinton reported that the number of student enrollment in the first nine elementary grades as of December 1, 1974, was 1,548, 00 students. The number of actual student enrollment as of December 1, 1974, was 1,615 students.  
Mr. Klinton reported on the two-day goal study conducted last week. It was an attempt to determine in what direction we want to move forward in relation to education. Four general areas were considered: (1) What is the level of the current education program? (2) What are suggested changes? (3) What are the priorities for education; and (4) What type of job will our students be looking for upon graduation. A questionnaire will be constructed; however, the method of distributing the questionnaire has not yet been determined.  
Mr. Klinton reported on the Curriculum Workshop he and three secondary teachers attended in Issaquah for two days. The problem area covered was reading on the junior high level. A model procedure was developed with four teachers working with students in this problem area. It is hoped that within a year or two the students will be back on the right reading track.  
One bid was received for the welding hood and exhaust system from Smith & Lott, Inc. of Aberdeen for \$5,644.00 plus state sales tax. The removal and replacement of Hgms and wiring of fire motor was not included in the bid as it would be done by others. The bid was accepted.  
One bid was received for the surplus generator from Fred Kinnert of \$25.75. This bid was accepted as was one bid received from Charles Melner of \$30.50 for the surplus electric dryer.

Name.....  
Address.....  
City..... Zip.....  
\$8.00 will send a Gift Subscription of the Forks Forum to a friend or relative until July 1, 1976.

No bids were received for the surplus utility type trailer or for the gas 40" range.  
A teaching contract was approved for Richard M. Krebs as elementary special education teacher.  
A letter was received and read from Mrs. Floyd Thornton regarding the TV film, "The Gun" which has been released for organizations and schools. Mrs. Thornton requested that if this film is shown in our district that the opposing side be presented also. It was noted that it has always been the district's policy to present both sides of any controversial subject. Mr. Klinton was authorized to send a response to Mrs. Thornton.  
Because it was not anticipated to meet the January deadline, Rose Jones FEA president, extended the deadline to no later than February 1, 1975, for the board to present their counter proposal on educational improvements on the salary scale.  
Mr. Klinton presented two proposals to the board for a general fund levy. All figures are based on information known at the present time. In effect, Total estimated savings for the 1975-76 school year is \$47,259.  
Proposal I: Maintain the present level of education for the students. This includes no additional certified staff within the district as certified staff members resign or retire. Increases the 1974-75 school year projected expenditures 2.5% due to inflation--\$1,897,328.00 expenditures for the 1975-76 school year. Amount needed for a special levy--\$781,848.00 or \$9.72 per thousand dollar of assessed valuation.  
Proposal II: Add a 12.9% inflation factor on the 1974-75 funds other than employee salaries and benefits. 1975-76 school year projected expenditures--\$1,767,310. Amount needed for a special levy--\$840,214.00 or \$4.42 per thousand dollars of assessed valuation.  
Proposal III: A recommended level of education for the students which the administration of the district feels should be implemented. This proposal would assist in not only diversifying the income offering on the secondary level, but also being more quality education to the students on the elementary level. This proposal would include a 12.9% inflation factor on the 1974-75 funds other than employee salaries and benefits. 1975-76 school year projected expenditures--\$1,767,310. Amount needed for a special levy--\$840,214.00 or \$4.42 per thousand dollars of assessed valuation.  
Mr. Klinton stated that he and the

**CONDITION HAS CHANGED**  
Janell Rollins 4, of Forks was listed as serious but stable at Seattle's Children's Orthopedic Hospital today where she was taken after being wounded by a shotgun blast at her aunt's apartment December 7.  
A hospital spokesman said the girl remains in a coma but her condition is stable.  
**WOMAN STILL CRITICAL**  
Patricia Ann Dinnmore, 41, Forks, remained in critical condition today at Seattle's Harborview Medical Center from a head injury sustained when she was struck on the head early Tuesday morning.  
Donald Dee Dinnmore, 59, was arraigned in Clallam County Superior Court Wednesday afternoon on a charge of second degree assault following the alleged altercation at the couple's home at the Bain Forest Trailer Park in Forks. Bail was set at \$5,000.  
A Coast Guard helicopter flew the Forks woman to Seattle.

**FOOD HANDLERS TEST**  
The Olympic Health District announces that it will be in Forks issuing food worker cards January 9. State law requires that all employees of food and beverage establishments in the state have a current card.  
A test must be passed and a \$2.00 fee paid before it can be issued. The test will be given in the multi-purpose room of the Forks Primary School from 1:30 - 3:30 p.m. on Thursday, January 9. Study books are available from the managers of the establishments at the Forks Town Hall.

**Smookey Soya:**  
Hunters Be extra careful with those warning fires!

A Touch of Winter: Ice clings to the twigs of a dogwood tree as cold weather prevails here on the Peninsula. Yesterday saw warm rains and winds from the Pacific, and one knows not what tomorrow will bring. As for today, however, we will have to accept it as it is, a touch of winter.

## EMPLOYEES RETIRE

In 1969, he worked as a forestry technician in the Timber Management Department. Stan and his family reside in Port Angeles.

**USDA PROPOSE INCREASE**  
 Food stamp recipients would pay a standard 30 percent net income for their food stamp allotment, effective March 1, under a amendment to food stamp regulation proposed by the U.S. Department of Agriculture (USDA).  
 The intention to propose this increase was announced in President Ford's Budget Message of November 26.  
 The proposal would mean an increased purchase requirement for all households except (1) certain households of eight or more persons, which have been paying 50 percent of income and (2) those entitled to free food stamps under the law (one and two person households with net monthly incomes of less than \$30 and all other households with income of less than \$20).  
 For example, a four-person household with a monthly net income of \$150 after allowable deductions (e.g. taxes withheld, shelter costs over 30% of income, medical expenses over \$10, and child care expenses) now pays \$41 for \$150 in food stamps. Under the proposed

## Forest Tax Distributions And Harvest

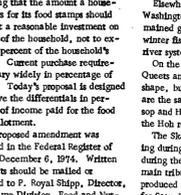

Influenced by abnormal weather and declining exports, the volume of timber harvest in the West during 1974 was assessed at 1.1 million on stumpage value totaling \$225.5 million v. \$3.1 million and 2176.6 million, respectively, in 1973. The 1974 rate of 3.4 percent compares with 1.8 percent in 1973.  
 Distributions to local trading districts for calendar 1974 have been completed in the amount of \$5,697,359. Another \$5.3 million is awaiting distribution from the Forest Reserve Fund as soon as the Legislature perfects an apportionment formula. Gilliam County and Jefferson County received \$708,484.00 and \$262,200.00 respectively.

## Happy New Year

New Year's is the time for fun and festive friends. We're wishing all of you, our friends and customers, the very best New Year you've ever enjoyed.

## STEELHEAD FISHING SLOW

Weekend fishing reports from across Western Washington show that angling was generally slow with a few exceptions, notably the Green and the Bogachiel. Rogatchiel Fish Hatchery Supt. Steve Miller reports that the Bogachiel is in good shape and that fishing there over the weekend was good, with the catch being made up of at least 80% hatchery returnees.

 Port Angeles 75 - North Kitsap 84  
 Outlook 58 - Neah Bay 55  
 Raymond 46 - Oceano 40  
 South Bendy - Valley 35  
 What is the long side or were the Spartans in a slump?

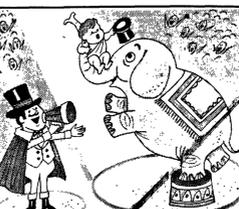

This question was asked by the Spartans fans who viewed the chuffed and northy winds and occasional hail showers.  
 As play opened, the Spartans found their groove, and the Bulldogs were quick to cover the hole.  
 Montesano jumped out to a quick lead and never looked back. As the first quarter closed, Montesano maintained a 17 - 6 lead.  
 The second quarter was one that Spartans Coach Babe Bulholm would most likely try to forget. The Spartans found the range, inside and out, and not within reach. Forks repeatedly shot toward the goal, but found the lid a little too tight. Forks was held to only one point in the second quarter. The Spartans defense must be given a pat on the back as in that devastating second quarter, Montesano collected only 10 points.  
 By the close of the half, Forks trailed the Bulldogs 27 - 7.  
 As both teams returned to the field, cold 10% field goal shooting statistics were released, the Spartans went 0-3 work.

Forks shot well in the third quarter, the only problem, the Bulldogs kept pace pumping in 19 as the Spartans found only 18 points reaching the board.  
 Down 46 - 25, Spartans Coach Babe Bulholm substituted the entire starting "5", and gave the bench a lot of game action.  
 The reserves kept pace for a while until they were forced to make several costly mistakes and turn the ball over to the Bulldogs.  
 As the final statistics were tallied the Spartans were in the ball game on field goal attempts. The only problem was that Montesano shot 58 times, hitting 22 for 38%, while Forks attempted 62 shots, completing only 15 for 24%.

Next for the Spartans will be the Christmas Tournament at Forks High School this Friday and Saturday evenings.

# KID STUFF

by Sheri Hall and Lisa Pooler  
 The Robert Hall family went to Everson, Washington for Christmas.  
 \*\*\*\*\*  
 Lynn Pooler's aunt and uncle came up from Satsop, Washington to visit her grandparents and her Mom and Dad.  
 \*\*\*\*\*  
 The kids that played in the ball choir last Sunday played "Silent Night".  
 \*\*\*\*\*  
 Kids, not much to say this time because kids are on vacation, but call us if you are going somewhere or you went somewhere. Call: 374-5278 or 374-6340.  
 Merry Christmas and Happy New Year.

# CHRISTMAS CAROL FUND RAISER

For over twenty years the members of the Forks Seventh-day Adventist church have been singing carols at Christmas time to the people of the town.  
 Caroling is a denunciation-wide program of the church to raise funds for health, education and welfare.

The happy sound of bells announces the glorious New Year Day, and with it goes our sincere wish for your health and happiness.

**BILL'S TEXACO**

The time has come to wish you and yours a most healthy, prosperous New Year and to express thanks for your loyalty. May the forthcoming year bring you all the happiness, and success possible!

**Swain's GENERAL STORE, INC.**

work undertaken by this body. Accompanying the dinner, attending members will be asking for contributions to make a goal of \$340.00. This amount is the local church's share of the 1974 goal of \$6,630,000.  
 Douglas Ammon, the local pastor, said, "Inflation has made it necessary to raise a larger amount this year. Needs increase and the dollar buys less. Caught in this squeeze, the church must increase its giving. The generous help of the community is greatly appreciated."  
 According to the pastor, the 2.2 million member denomination operates the largest foreign mission program of any protestant church. In a number of sensitive areas they provide the only medical and educational services available. Their work requires 228 languages in the 189 countries in which they have established work.

# REFUND CHECKS

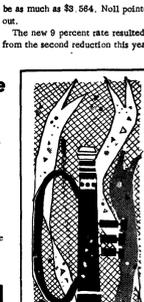

Refund checks totalling \$661,488 have been mailed to 27 public hospitals and 19 state institutions in the first distribution of settlement funds received from five drug manufacturers, Attorney General Slade Gorton announced.  
 The distribution is part of the \$4,235,000 settlement of an anti-trust suit against the five makers of central heat-spectrum antidiabetic

drugs, particularly rosiglitazone and its derivatives.  
 A total of \$690,000 was allocated for the public institutional class. Refunds, as well as costs and attorneys fees, were pro-rated among the organizations based on their estimated purchases.  
 The refunds, which include interest earned since July 17, amount to 114 percent of the estimated purchases. This high percentage of recovery reflects in part inflation in the period of up to 20 years since the purchases were made.  
 Gorton said a separate program of partial cash rebates for members of the consumer class "is in full progress." The U. S. District Court will mail supplemental information forms early next month to citizens who previously reported purchasing more than \$150 worth of drugs in the

period of 1954 - 1968.  
 Net recovery to Forks Community Hospital amounts to \$2,131.06.

# Savings To Veteran Home Buyers

The recent reduction from 9.5 to 9 percent in the maximum allowable interest rates on GI and FHA home loans could mean as much as \$9.90 per month savings to the average veteran home buyer, according to Irvin D. Noll, director of the Veterans Administration regional office in Seattle.  
 Over the 30 year life of the average \$27,500 GI loan, the total saving from the .5 percent reduction would be as much as \$3,564. Noll pointed out.  
 The new 9 percent rate resulted from the second reduction this year.

 Bowlers of the Week: Lori Sandrine 158, Eddie Paris 181-434, Brenda Middleton 216-556, Vern Rodanac 239-450.  
 Merry Christmas to y'all!!!

In 1972 the deer harvest was even lower than this past season, a total of 40,000 animals, compared to an estimated 50,000 in 1974. The elk harvest likewise was lower, a total of 9,000 being harvested in the similar period two years ago.  
 Deer and elk hunters have one thing to be thankful for however. Due in large part to the previous cooperation of sportsmen, the Department of Natural Resources did not close the general buck and bull elk hunting seasons. Had these seasons been closed due to the extreme fire danger, success would obviously have been much lower this past year.  
 Hunters need to look at the balance of the winter to ascertain the possibilities of a better season next year, address the Game Department. The winter has been extremely mild this far and barring deep snows and prolonged periods of sub-freezing temperatures, Washington's big game herds should come through the winter in excellent shape.  
 Department officials remind sportsmen that opening dates for big game seasons are set at the April Game Commission meeting. There is no way at this time to determine what opening day number will be. The Commission sets seasons based on suggestions from the public and recommendations of Game Department personnel.  
 For the past several years, opening day for the general bull elk season has been set for around the Monday nearest to the end of October or first Monday in November. Early winter snow on this date, or lack of it, makes this opening critical for hunters planning on being afield in the Cascades. Lack of snow in the Blue Mountains, such as happened this year, makes ideal elk hunting conditions. The excellent season this year is an example. Also, Olympic Peninsula elk hunters find that generally mild weather conditions during the course of an elk hunt do not affect success drastically.  
 The opening off the general hunting season for deer is always set to coincide with that of inland birds and waterfowl. Invariably, the general season opener comes up around the middle weekend of October, often on the same weekend as the Columbus Day holiday, which provides sportsmen with a long 3-day vacation.

### CHOKERMAN SCHOOL SET

(Reprinted from The Rayonier Reporter)

**FORKS**--No one would purposefully have his fingers pinched, sprain an ankle, or stand in the way of swinging rigging, refueling limbs or moving logs. Yet these are all attendant dangers that face new chokers set when they apply for work in the woods.

Safety records show that new or inexperienced employees are more likely to be injured in the woods than experienced workers. "The first year is the worst," explained corporate safety director Jack Smith. "Once a person learns his way around a lot he usually avoids serious accidents."

Until a year ago, it was a fact that first year employees here had more accidents as a group than all other Rayonier woods employees working in the north end combined. Now, thanks to a new school designed to train inexperienced chokersmen, all that is changing.

A working side for training chokersmen was started last fall. Every body involved in pulling log goes through the school. Full time instructor is Gary Stenbeck, a rigging slinger with extensive woods experience. New employees are sent to the working side which also serves as a training side. They stay there for a week or possibly two. Once they learn the pitfalls of choker setting they are transferred to another side. After all the logs at the training side are yarded, another site is selected. About 50 have gone through the school which is administered by month and safety supervisor Bill Pimke.

According to Pimke and Smith, the school has been paying big dividends in terms of reduced frequency of accidents. In fact, from September '73 to April '74, no chokerman was injured because of the hazards associated with his work.

Choker setting is usually the first job assignment a person has when he is hired on in the woods. Rayonier's new hazards always shown a training film called "The Chokerman." They are also given a card that lists the basic verbal signals and entries important "do's and don't's" never to use moving lines, keep behind or to the side of, turn to be moved, and watch logs as they break out. Rigging slingers also carry a card that has the basic rules for hanging logs safely into their landing.

Pimke discusses the importance of woods safety with each new worker and checks him out to make sure he has the proper equipment such as forecoat. Then he is sent to the combined working-training side.

Area supervisor job has called the program "the best thing that ever happened to us." He said it has been a major factor in contributing to reduced frequency of injuries. He added that the program goes

hand in hand with increased safety responsibility of supervisors working in the woods. Supervisors now hold weekly safety committee meetings and bear the major share of the responsibility for accident free logging sites and job sites.

According to Lea, the program has been a success and will continue indefinitely.

### SPARTANS BOMB HYAKS

The Spartans may have been a little confident against the North beach Hyaks.

In the first half, the Spartans found the road a rough haul as the Hyaks plugged the middle not allowing Forks to make any penetration and attempt any high percentage shots.

Forks found the Hyaks keeping pace through the first half as both teams left the floor for intermission with the Spartans leading 25-18.

During halftime, Spartans Coach Babe Hultman made a few changes and the Spartans came out with a devastating half-court press that forced the Hyaks to cough up the ball and enabled the Spartans to explode for their biggest quarter display of power. The tidal quarter 23 point outburst put the Spartans on top of the action and a commanding lead at the end of the third stanza 57-21.

From that point, the Spartans coasted home with an easy 14-41 victory as the entire Spartans roster was given plenty of game action as the Spartans prepared for their big weekend against Southern Wolves and Muncieano Bulldogs.

# FLASHES FROM FLO

374-6300 or 374-8888

By Florence Anderson

Jillie Gidden and two children Tim and Ingrid of Olympia are guests of Mrs. Gidden's parents, Mr. and Mrs. Fred Forsmond. They will spend a week in Forks.

Maec "Pony Show" winners in the KVAC contest are: Linda Woody, Gail Sharpe, Edna Leppell, Mary Dille, Ann Kelm, Jr., Kathy Hlavaty, Lucan Bousy.

"Mac" and Phyllis Munro and "Herb" and Sirtina Franklin of Forks are the proud grandparents of a baby girl born December 22. Her name is Sirtina Christina and weighed 7 lbs. and 8 oz. Her parents are Grant and Carol Munro of Sumner, Washington.

The family had asked Santa to bring them a little girl and just like always, Santa came through and saw that the wish was granted.

May you have a happy and prosperous 1975.

## FORKS BIBLE CHURCH

Forks Bible Church will hold a watch night service Tuesday, December 31, from 9:30 to 12 p. m.

The film "The Return" will be shown, and the evening will be a time of both spiritual and physical refreshment.

All are welcome.

## CLALLAM COUNTY PUD

The District's underground line extension policy was modified to reflect increased labor and material costs, announced Mr. A. E. Fletcher, President of the P. U. D. Board of Commissioners. Mr. Fletcher stated that the refund capability of the District's previous policy has been continued in a modified form. Developments have been eligible to receive a refund of a portion of the cost of the installation when the revenue from a plan equals that cost, provided certain time limitations are fulfilled. The basic cost of \$0.85 per foot of cable has been increased to \$1.54 per foot, and the refund available has been modified

to equal 50% of the total cost. Other provisions of the refunding policy have been retained, according to Fletcher.

The Board of Commissioners approved the sale of District electric facilities which serve an area recently annexed by the City of Port Angeles. All District customers whose property has been annexed will be involved in the transfer of facilities to the City.

The Union requests for the contract year of 1975 were presented to the Board. The Union has requested a substantial adjustment of wages in all classifications, and an upward revision of fringe benefits. Negotiations will commence prior to the present contract expiration date of February 1975.

An operations report was presented to the Board by Superintendent Carl Olsen. Work scheduling by both District and contract crews was reviewed in all service areas of the District. Special problems were noted wherein certain types of materials were difficult to obtain, with a consequent delay in some scheduled projects.

Mr. Fletcher announced that Mr. Russell Layton, Secretary of the Board, has been elected President of the Washington P. U. D. Utilities System. The Utilities System is an association of sixteen P. U. D.'s, joined together for group insurance purposes.

The last Junior Varsity match showed Louisa of Forks leading to McTague from Ocoosa by decision 10-2.

The Varsity match got underway at 7:10. The five Spartan wrestlers, Robert Wright 101, Dave Boatman 106, Mike Leavitt 115, Don Husley 122, and Dave Cline 129 all received six forfeit points so the Spartans led a 30 to 0 lead.

The Spartans 135 pounder, Brett Williams beat the Wildcat's 135 pounder Hatten by decision 15-7.

The next match showed more impressive for the Wildcat team as Doug Miller, Ocoosa's 141 pounder, beat Ken Bechtold of Forks 15 to 7.

In the next match Olen of Forks pinned Ocoosa's 149 pounder, Doyle, 1:26 into the first round, while in the next match Filkowski, the Spartans' 158 pounder, pinned Dan Miller of Ocoosa 1:00 into the second round. The score now read Forks 45, Ocoosa 3.

The next two matches showed a little hope for Ocoosa as Fletcher, the Wildcat's 163 pounder, pinned Garman from Forks 2:28 into the second round, and Anderson, the Wildcat's 175 pounder, pinned Hightwell from Forks 1:48 into the second round. By the way, this was the first time that Fletcher went over one round without pinning his opponent.

Willy Johnson picked up six forfeit points in the next match as Ocoosa didn't have a 190 pound wrestler.

In the last match between the heavy weights showed Dan Piza, the exchange student from Holland, pin Hight 7:35 into the first round. The final score was Forks 97, Ocoosa 25.

PLEASE DON'T EAT THE GREENERY

Some of the green in the Evergreen State is deadly poison. Children under five who struggle over abundant plants life account for 10 percent of Washington's poison emergencies, an incidence 40 percent greater than the nationwide average.

To help deal with this problem, emergency medication for poison victims is being made available to the public by the Department of Social and Health Services, through the month of December.

Dr. John Isaac, Director, Division of Health Services, said the medica-

## Forks Grapplers Caged The Wildcats

By Rod Swerin

On December 18 the Forks Spartan Grapplers traveled to Ocoosa to take on the Wildcats. Forks arrived at Ocoosa at about 6:00. The match was scheduled to start at 6:30.

Weight in started at approximately 6:00 and it took place in the Ocoosa locker room. The Spartans had personnel to fill every weight class, while Ocoosa only had personnel to fill seven weight classes. There were four Junior Varsity matches before the Varsity match.

The Junior Varsity matches started at 6:45. The first match showed Olen of the Wildcat's 101 pounder, beating Barry Hair by decision 20 to 15.

In the second match Mary Sundberg, the Spartans' 135 pounder pinned Carham from Ocoosa 1:15 into the first round.

In the next match Whidden, the Spartans' 148 pounder, pinned Summers from Ocoosa 1:17 into the second round.

tion, syrup and Ipecac, is used to induce vomiting. Since it must be given as soon as possible after ingestion of certain poisons, families with small children are urged to keep a supply readily available in the home.

Of the 30,000 emergency calls a year handled by the state's ten poison control centers, he said, 75 percent deal with children.

The Department will distribute free one-ounce bottles of Ipecac through the centers and also through participating local health departments, which will in turn make them available through well-child clinics and other programs. Ipecac is also available inexpensively at pharmacies without a prescription.

"Parents should always call the nearest poison center or the family physician as soon as there is any indication a child may have swallowed a harmful substance," Isaac said. "Ipecac should be given only after it is medically determined to be appropriate and safe. Once this determination is made, it should be given promptly."

Induced vomiting is not advised, he explained, when the patient is unconscious or semiconscious, or when the ingested poison is thought to have been a strong alkali, a mineral acid, kerosene or other petroleum product.

Harmful substances most frequently swallowed by children have been medicines, with aspirin the most common, he said. The use of "child-resistant" containers, however, has reduced medicine poisonings by about 25 percent.

A continuing source of danger, he said, is poisonous plants, which are abundant throughout the Northwest. The most common of these are: Jimson weed, nightshade, hemlock, holly berries, elderberry leaves and bark, oak leaves and acorns, rhododendron, azaleas, laurel, rhubarb leaves, lily-of-the-valley, narcissus and daffodils.

Ipecac is prescribed in most cases of poisoning by medicine or plants.

REPORT FROM REP. CONNER

Rep. Paul Conner, D-Southern, Friday pre-filed a measure which would amend the State Vietnam Veterans Bonus Act that would extend the filing period for bonus benefits and remove a clause in the original bill excluding many veterans from receiving the \$250 payment.

Conner said he filed the bill at the request of the State Treasurer's office.

The original bonus bill excludes veterans who were in the service prior to five years before the signing of the Gulf of Tonkin Resolution
