in your family budget... REMEMBER, MOST PEOPLE SAVE EVENTUALLY, SO WHY NOT DO SO IN THE FIRST PLACE?

"A Savings Account is O.K. but it takes all we make just to make ends meet."

You've probably heard the foregoing as many times as we have. Still the people who make these remarks can't deny that they don't wonder what will happen ist they don't save.

Maybe you've already experienced it. Perhaps it was an accident, an illness or a lay-off that set you back on your financial heels. Or maybe it was an opportunity for a business investment that caught you unprepared. Unexpected happenings like these take savings and the easiest and surest way to save is to deposit a certain amount with regularity.

Don't be caught off guard. Have all the money you want when you need it for that down payment on that new home, for your children's education or a well earned vacation. Put First things First in your family budget!
