Re: Explore space with NOLS and Pacific Science Center, June 25 and 26

The North Olympic Library System (NOLS) is launching its Summer Reading Program with four free presentations of “Explore Space with the Pacific Science Center.” What would the Big Dipper look like from the other side of the universe? How much would you weigh on Venus? Discover answers to these questions and more through hands-on astronomy activities. Educators from the Seattle-based Pacific Science Center will guide kids and teens through interactive experiences exploring meteorites, constellations and the wonders of space science.
