Re: Weird Science in the Clallam Bay Library

Weird Science in the Library will be held at the Clallam Bay Branch of the North Olympic Library System as part of the COAST Program on Wednesday, October 26th, at 3:15 pm.

A number of weird-but-fun science activities will be set up throughout the library, where participants will have opportunities to experience scientific discoveries through chemistry, earth science, physics, and life science experiments. The Library also has many books on science-based activities and ideas available for check-out. This event is geared towards readers in grades K-8.

This event is part of an ongoing partnership between the North Olympic Library System and Cape Flattery School District's COAST (Creating Opportunities for After School Thinking) program. Funded by a Department of Education 21st Century Learning Grant, COAST's mission is to provide after-school enrichment activities for children. For more information about the COAST program, contact the Clallam Bay or Neah Bay Schools at (360) 963-2103.

The Clallam Bay Library is located at 16990 Highway 112, Clallam Bay. To learn more about this and other programs for young people, call the library at (360) 963-2414, e-mail Clallam Bay Branch Library @ cb@nols.org or visit the NOLS website at www.nols.org.
