Re: Science Magic with Jeff Evans at the Clallam Bay Library

Young people can enjoy *Science Magic* with Jeff Evans at the Clallam Bay Branch of the North Olympic Library System as part of the COAST Program on Monday, December 5, at 3:15 pm.

**Science magician Jeff Evans** raises questions about the way objects behave, and then reveals the scientific reasons behind them. When Jeff combines magic with science, the result is *fun!*

The Library also has many books on science-based activities and ideas available for check-out. This program is geared towards readers in grades K-8.

This event is part of an ongoing partnership between the North Olympic Library System and Cape Flattery School District's COAST (Creating Opportunities for After School Thinking) program. Funded by a Department of Education 21<sup>st</sup> Century Learning Grant, COAST's mission is to provide after-school enrichment activities for children. For more information about the COAST program, contact the Clallam Bay or Neah Bay Schools at (360) 963-2103.

The Clallam Bay Library is located at 16990 Highway 112, Clallam Bay. To learn more about this and other programs for young people, call the library at (360) 963-2414, e-mail Clallam Bay Branch Library @ [cb@nols.org](mailto:cb@nols.org) or visit the NOLS website at [www.nols.org](http://www.nols.org).
