Re: *Map It! @ the Forks Branch Library*

This December, the Forks Branch of the North Olympic Library System (NOLS) will present a beginner's cartography program to introduce the library's new portable map collection. *Map It! @ the Forks Branch Library* will take place at 6pm on December 10 and feature a discussion of the Olympic Peninsula's cartographic history. Participants of all ages will learn new techniques for interacting with maps in addition to gaining hands-on practice using the new collection. This program, led by local cartography expert Curt White, is free, and pre-registration is not required.

Learn more about the history of maps and how to use them by visiting www.nols.org, where you can browse the library catalog for materials and resources that will help you make new discoveries.

The Forks Branch Library is located at 171 South Forks Avenue in Forks. For more information about this and other upcoming events, visit www.nols.org and click on "Events" and "Forks," or call the library at 360-374-6402.
