Re: *Explore!* Nature Photography with Ross Hamilton

This March, learn how to capture stunning images of nature with renowned local photographer Ross Hamilton. *Explore! Nature Photography* will take place at 6:30pm on Friday, March 18, at the Sequim Branch of the North Olympic Library System (NOLS). Hamilton will discuss his favorite places to shoot on the peninsula, and share professional tips and tricks for working in the field.

This event is an encore presentation by Hamilton at the Sequim Branch Library. The first program, held in early February, quickly reached capacity due to limited meeting room space at the library, leaving many unable to attend Hamilton's talk.

About Ross Hamilton

Ross Hamilton has been awed by the Olympic Peninsula for 40 years. For many of these years, the coast, forests, and mountains have been his studio. Well before digital photography, Hamilton packed heavy cameras and equipment into the wilderness backcountry and recorded its treasures on film. His sensitive, straightforward style celebrates his subject with little embellishment. Now afflicted with impaired vision, he seldom photographs today; but the timeless beauty of his subject is still enjoyed in books, calendars, posters, and cards.

***Explore!* with NOLS**

The *Explore!* program series offers an introduction to a range of activities on the Olympic Peninsula and beyond. From travel and rhythm to DIY bike maintenance and bird watching, this series will inspire, educate, and help you take the first step toward your next adventure.

This program is generously supported by the Friends of Sequim Library. For more information about this and other upcoming events, visit www.nols.org and select “Events,” and “Sequim,” or call 360.683.1161. The Sequim Branch Library is located at 630 North Sequim Avenue in Sequim.

“Mt. Olympus 2, High Divide” by Ross Hamilton
