Subject: Discover the world of dinosaurs with the Burke Museum of Natural History and Culture

Embark on an adventure through the world of paleontology with your family at the Sequim Branch Library! On Saturday, April 23, the Burke Museum of Natural History and Culture will present *Discoveries with Dinosaurs*, a special family program for children ages 3-5 that's all about dinosaurs and other prehistoric life. Drop in anytime between 10am and noon to channel your inner-paleontologist, solve scientific mysteries, participate in fossil digs, and play dino-themed games.

This free event is made possible through a grant from Thrive by Five Washington, and was designed with early learning in mind. NOLS is one of two organizations partnering with the Burke Museum to introduce this new curriculum. Additional Burke Museum programming will be offered at the Sequim Branch Library on Saturday, June 11, and Wednesday, August 10.

The Sequim Branch Library is located at 630 North Sequim Avenue in Sequim. For information about this and other programs for youth, contact the Sequim Branch Library at 360.683.1161, visit the library website at www.nols.org, or send an email to youth@nols.org. "Like" NOLS on Facebook to receive regular updates about upcoming library events and programs.
