Subject: *Creative Science!* with the Burke Museum of Natural History and Culture

Explore science through art at the North Olympic Library System (NOLS)! The Burke Museum of Natural History and Culture will visit the Port Angeles Main Library from 10am to Noon on Saturday, May 21, to offer a free, interactive family program for kids ages 3-5 that is all about nature, art, and science. Drop in anytime to weave a masterpiece, investigate rocks and minerals, and explore plants and animals through a creative lens.

Creative Science is the third in a series of Burke Museum programs geared towards children under the age of five and offered at NOLS. Made possible with a grant from Thrive by Five Washington, these pilot programs are designed with early learning in mind. NOLS is one of two organizations partnering with the Burke Museum to introduce this new curriculum.

Additional information

For more information about *Creative Science* and other programs for youth, contact the Port Angeles Main Library at 360.417.8500 x7733, visit the Library website at www.nols.org, or send an email to youth@nols.org. "Like" NOLS on Facebook to receive regular updates about upcoming library programs, services, and events. The Port Angeles Main Library is located at 2210 South Peabody Street in Port Angeles.
