Subject: Be a Backyard Scientist with the Burke Museum of Natural History and Culture

Learn how to be a scientist in your own backyard at the Sequim Branch Library! On Saturday, June 11, the Burke Museum of Natural History and Culture will present a special educational program for families and children ages 3-5 that's all about nature, bugs, plants, and animals. Drop in anytime between 11am and 1pm to make pollinator puppets, solve habitat mysteries, and play nature-themed games!

This free event is the second in a series of Burke Museum programs geared towards children under the age of 5 and offered at the North Olympic Library System (NOLS). Made possible through a grant from Thrive by Five Washington, these programs are designed with early learning in mind. The final program in this Early Learner series from the Burke Museum of Natural History and Culture, Creative Science, will be offered at the Sequim Branch Library on Wednesday, August 10.

The Sequim Branch Library is located at 630 North Sequim Avenue in Sequim. For more information about this and other programs for youth, contact the Sequim Branch Library at 360.683.1161, visit the library website at www.nols.org, or send an email to youth@nols.org. "Like" or "Follow" NOLS on Facebook to receive regular updates about upcoming library programs and events.
