Re: Walking Book Club at the Port Angeles Main Library

Walk while discussing your favorite books this summer by joining the Walking Book Club at the Port Angeles Main Library. The club will meet at 12pm on Wednesdays, June 22, July 20, and August 17, and depart from the Port Angeles Main Library for a stroll through the local neighborhoods. A librarian will lead the way during these hour-long conversations about books and literature. This is a great opportunity to get new book recommendations, share some of your favorites, and walk with other reading enthusiasts. Participants are encouraged to wear comfortable shoes and be comfortable walking a roughly 20-minute mile without difficulty.

Unable to make the walks, but looking for books to read? The North Olympic Library System (NOLS) is here to help! Stop by your library to receive custom reading lists and recommendations from friendly NOLS staff.

The 2016 Adult Summer Reading Program

Designed for adults ages 18 and older, the 2016 Adult Summer Reading Program will take place between June 20 and August 20. Participating is easy: simply visit any NOLS library to pick up your Reading Log (and some books!). For every book you read, you will receive one entry in a marvelous Grand Prize drawing; the more you read, the better your chances of winning! To keep readers motivated, NOLS will be hosting events and activities throughout the summer.

For more information about this and other upcoming programs at your Library, visit www.nols.org and select “Events,” call the library at 360.417.8500, or send an email to Discover@nols.org. The Port Angeles Main Library is located at 2210 South Peabody Street in Port Angeles. This event is generously supported by the Port Angeles Friends of the Library.

NOLS Librarians (from left to right) Danielle Gayman, Sarah Morrison, and Jennifer Knight will lead walking discussions about books and literature during Walking Book Club meetings on June 22, July 20, and August 17 at the Port Angeles Main Library. (Photo: North Olympic Library System)
