Re: *Second Saturday Science* at the Sequim Branch Library

Second Saturday Science at the Sequim Branch of the North Olympic Library System (NOLS) is offered every second Saturday of the month through May 2017. Each program, with the exception of the May 13 session, will take place from 10:30am to 12:30pm and offer children ages 7-12 fun, hands-on opportunities to explore concepts related to science, technology, engineering, and math (STEM).

All classes in the series are free, and **preregistration is required for all sessions** due to limited space. To register, visit the Sequim Branch Library events calendar at www.nols.org, call the library at 360.683.1161, or send an email to youth@nols.org. All materials will be provided.

Upcoming programs

World of Decomposition

Explore the world of decomposition on **February 11**. Examine critters in a worm bin, test your knowledge with waste sorting games, learn about the nutrient cycle, move like a worm and demonstrate your worm Mad Libs game skills. This session is generously presented by WSU Extension Master Recycler/Composters Meggan Uecker and Dan Littlefield.

Water Wonders

Join in a variety of interactive water science activities, experiments, and games on **March 11**. Explore water quality science and the effects of water run-off on the environment. This session generously presented by WSU Extension Director Clea Rome and WSU Extension 4-H Program Coordinator Jenny Schmidt.

Magnetic Slime

Take slime to a whole new level by creating magnetic slime on **April 8!** Worked with magnets? Made slime? It's a good bet you haven't done it at the same time. Peninsula College STEM Club members will assist participants with creating a magnetic slime.

Yes, It's Rocket Science

The Museum of Flight will be presenting two rocketry programs for a Second Saturday Science program finale on **May 13**. A quick rocket history, rocket construction, and rocket launch will be offered at each session. The first session will be offered from 10:30am – 11:30am and is designed for ages 7-12. The second session for ages 5-6 requires parent participation and will be offered from 11:30am – 12:30pm.

Additional Information

For more information about the Second Saturday Science program series, contact the Sequim Branch Library at 360.683.1161, send an email to Youth@nols.org, or visit www.nols.org. The Sequim Branch Library is located at 630 North Sequim Avenue in Sequim. This program is generously supported by the Friends of Sequim Library.

February 11: The World of Decomposition

March 11: Water Wonders

April 8: Magnetic Slime

May 13: Yes, It's Rocket Science!
