Subject: Forks Library to host Hour of Code
Attached: *hour-of-code-logo.png*

The Forks Branch Library of the North Olympic Library System (NOLS) will host an *Hour of Code* on Wednesday, April 5, from 1pm to 2pm.

Hour of Code is an introduction to computer science designed to demystify code and show that anybody can learn programming basics. Each participant will use a laptop to access a variety of fun, self-guided tutorials provided by Code.org.

More About Coding

Computer coding is a valuable skill because it is a universal language. People who know how to code will be able to communicate across countries and cultures, and solve problems more efficiently in the future. Learning programming at a young age helps children solve everyday problems and set up for a lifetime of opportunities. *Hour of Code* is the first step for anyone to learn that computer science is fun and accessible at all ages!

This event is recommended for ages 4 and up; even pre-readers can participate! All learning levels are welcome. Laptops will be provided, and registration is required. ~~Registration required!~~
To register, visit www.nols.org
or send an email to Youth@nols.org. To register, visit www.nols.org, select “Events,” and “Forks”.

More Information

This program is made possible by a grant from the Washington State Library. The Forks Branch Library is located at 171 South Forks Avenue. For additional information about this and other programs at your Library, contact the Forks Branch Library at 360.374.6402, visit www.nols.org, or send an email to discover@nols.org.
