Subject: Explore EggBots at the Forks Branch Library
Attached: *egg-bot.jpg*

Explore robotics and coding with EggBots, at the Forks Branch of the North Olympic Library System (NOLS) on Friday, May 19 at 3:30pm. During this workshop for youth, ages 10-17, participants will learn about CNC (computer numerical control) and try their hand at coding and robotics with EggBots! The EggBot is a compact, easy to use open-source art robot that can draw on spherical or egg-shaped objects. It is highly adjustable and designed to draw on all kinds of things that are normally “impossible” to print on such as golf balls, light bulbs, and even glasses.

For additional information about this and other upcoming programs for youth, visit www.nols.org and select “Youth”, call the Forks Branch Library at 360.374.6402, or send an email to Youth@nols.org. The Forks Branch Library is located at 171 South Forks Avenue.
