Re: Second Saturday Science at the Sequim Branch Library
Attached: *rockets.jpg*

Second Saturday Science at the Sequim Branch of the North Olympic Library System (NOLS) will be offered every Second Saturday of the month October – December from 10:30-11:30am. The *Second Saturday Science* series—for ages 7 to 12—creates fun, hands-on opportunities for children to explore concepts related to science, technology, engineering, and math (STEM).

Each session is free to attend, but with class sizes limited, registration is required. To register, visit the Sequim Branch Library events calendar at www.nols.org, call the library at 360.683.1161, or send an email to youth@nols.org. All materials will be provided.

Class Schedule

Saturday, October 13: Rocketry

Science Educator Christine Spaulding will introduce children to the scientific concepts behind rocketry. Children will learn about, build, and take home a rocket for future explorations.

Saturday, November 10: Atomic Interactions

What makes things fizz, pop, and bang? Where do bubbles come from? Children will explore exciting concepts in chemistry with the Peninsula College STEM Club.

Saturday, December 8: Skins and Skulls

Mammals live on every continent and all have special adaptations to help them survive in their habitats. Children will investigate the skins and skulls of some of our local furry friends to see what they tell you about how they live. The Dungeness River Audubon Center will lead this session.

ADDITIONAL INFORMATION

For more information about this and other programs for youth, contact the Sequim Branch Library at 360.683.1161, send an email to Youth@nols.org, or visit www.nols.org. The Sequim Branch Library is located at 630 North Sequim Avenue in Sequim. This program is generously supported by the Friends of Sequim Library.

Register now for Second Saturday Science in Sequim.
