The Second Saturday Book Discussion Group meets at the Sequim Branch Library of the North Olympic Library System (NOLS) every second Saturday of the month at 3pm. On Saturday, February 8, the group will meet to discuss *The Skeptics' Guide to the Universe* by Steven Novella. To participate, simply read the book and attend the discussion; no reservations are needed, and drop-ins are always welcome. For a full schedule of 2020 Book Group selections, visit [www.nols.org/ book-discussion-groups](http://www.nols.org/book-discussion-groups).

The Skeptics' Guide to the Universe: How to Know What's Really Real in a World Increasingly Full of Fake is your map through the maze of modern life, a world overflowing with misinformation, bias, myths, deception, and flawed knowledge. Here the authors will explain the tenets of skeptical thinking and debunk some of the biggest scientific myths, fallacies, and conspiracy theories—from anti-vaccines to homeopathy, UFO sightings to N-rays.

Copies of this title are available in various formats including regular print, large print, audiobook on CD and downloadable eBook, which may be requested online by visiting the library catalog at www.nols.org. A limited number of copies of each book discussion selection are available at the Library the month prior to each meeting.

This program is generously supported by a donation made in memory of Sally Albiso, and the Friends of Sequim Library. The Sequim Branch Library is located at 630 North Sequim Avenue.

For more information about this and other programs for readers and book lovers, visit www.nols.org, email Discover@nols.org, or call 360.683.1161.

“The Skeptics’ Guide to the Universe” by Steven Novella will be discussed at 3pm on Saturday, February 8 at the Sequim Branch Library.
