What type of health care would you want if you were unable to tell your health care providers yourself? Planning ahead is an important step in making sure your wishes are honored. Adults of all ages are encouraged to attend Advance Care Planning programs being held at all North Olympic Library System (NOLS) locations.

Whether you're just starting a family, are a single adult, have a teenager at home or are a retiree, having a plan in place is important. Trained representatives from Olympic Medical Center will discuss future and end-of-life health care choices available to you.
