North Olympic Library System (NOLS) patrons can join thousands of readers around the world in reading a historical fiction thriller eBook during [Big Library Read](#), the world's largest digital book club. Now through August 17, readers can borrow and read Tim Mason's "intellectually stimulating and viscerally exciting" eBook [The Darwin Affair](#) with no waiting. NOLS readers can solve the mystery from home – with a valid library card – by visiting anytime.overdrive.com or downloading the [Libby app](#), then discuss online at discuss.biglibraryread.com.

Historical fiction novel *The Darwin Affair* takes place in London during June 1860. When an assassination attempt is made on Queen Victoria, and a petty thief is gruesomely murdered moments later, Detective Inspector Charles Field quickly surmises that these crimes are connected to an even more sinister plot. Soon, Field's investigation exposes a shocking conspiracy in which the publication of Charles Darwin's controversial *On the Origin of Species* sets off a string of murders, arson, kidnapping, and the pursuit of a madman named the Chorister. As he edges closer to the Chorister, Field uncovers dark secrets that were meant to remain forever hidden. Tim Mason has created a rousing page-turner that both Charles Dickens and Sir Arthur Conan Doyle would relish and envy.

Facilitated by Rakuten OverDrive, Big Library Read is an international reading program that simultaneously connects millions of readers around the world with an eBook through public libraries. The free program only requires a NOLS library card to get started. Apply for a library card at www.nols.org/library-card.
