Re: Build a Planter Box Program
Attached: *PlanterBox.JPG, Angeles Logo Color.jpg*

As part of the Summer Reading Program, the North Olympic Library System (NOLS) invites kids to build their own planter or toolbox using kits available for pick up beginning Monday, June 21. The kits are designed for kids ages 4-12 to build with an adult. Boxes can be used as a planter, tool box, book crate, or whatever you'd like-- use your imagination! This building project is an opportunity for kids and adults to connect with each other by talking, learning, and creating together.

Hammers are not provided. Follow along with provided instructions and a demonstration of how to assemble the kit on NOLS' Facebook or YouTube. Limited kits are available; call your local branch to check on availability. Kits were created by Glen Humphrey of the Wood Connection, utilizing material generously provided by Angeles Millwork.

Take the Summer Reading Challenge!

Beginning Monday, June 14, sign up at www.nols.org/srp or at your local NOLS library to join the Summer Reading Challenge. For every 30 days you read, you can receive an entry into the Grand Prize Drawing (up to two entries). Each Grand Prize Drawing winner will be able to select one of the following prizes: a \$100 gift card to a local book store or restaurant, or a LEGO® set (up to \$100 in value)! Read for 30 days and earn a color-by-number Summer

Reading Challenge T-shirt-- express your creativity by filling it in yourself! Whether you read for 20 minutes or 20 hours, it counts as a reading day! Track your reading through August 20.

Summer Reading Program grand prizes, T-shirts, books, and events are generously supported by Friends of the Library groups at all four NOLS branches. For more information about the Summer Reading Program, visit www.nols.org/srp, call 360.417.8500, or email Discover@nols.org.

Pick up a building kit at NOLS beginning June 21.
