carry your Mercury outboard or other gear aboard. Place it on the edge of the dock, get aboard, then lift the equipment in after you. If the dock is high and you are alone, consider lowering the motor into the boat with a line while standing on the dock. If the boat is pulled to shore for loading, one person should steady the boat while others go aboard first should sit near the stern to raise the bow so it can be easily shoved off by the last person to climb in.

Program Being Modernized

Soil and Water Conservation District have modernized their pro gram. A new meniorandum of understanding has been signed with Secretary of Agriculture, Orville Freeman. Recreation developmen on private land has been added to the list of services available to district cooperators. The previous memorandum provided assistance on soil, water, plant, and wildlife conservation

About 175 million Americans

The supervisors of the Olypmic

take part in some form of outdoor recreation each year. Public agen cies are struggling to keep up with the demand but so far they are fa behind. Private recreation facilities can help fill the gap and provide one item which public projects can not-privacy. Many people are willing and able to pay for this fast disappearing item. The supervisors recognize this and have broadened their program accordingly. The inclusion of recreation deve lopment in their plan brings with it a new philosophy. Using our land to fill the needs of all the people. All requests for assistance must be approved by the district super-visors before "on-site" assistance can be given by SCS technicians.

One can find justification for

just about anything in the scripture
