dumped into the 58' water of the five acre pond. If conditions appears to be favorable the pond will be planted with additional fish until it contains between 250,000 at 18th, by calling Mrs. John Rosmod 374-6686 or Mrs. Walt to contains between 250,000 immates. They will be released into local rivers in April or May of next year. Pond rearing is considered to be much superior to the rearing of fish in a hatchery. The fish are fed pellets and greater control and conditions are available. It is expected that 10% of the plant will return and be caught by shivering fishermen.

Still to be installed is a large revolving metal screen which will also retain the fish.
