### MY CREDIT CARDS WERE SO NICE...

So nice, in fact, that they got me into trouble. I discovered all of a sudden that my big monthly credit card payments, added to my other obligations, were too much for me to handle.

I had about 12 or 15 substantial monthly payments which, if paid, left me far short of enough money to live on.

A good friends told me about Cascade Loan. I visited my Cascade office, discussed my position, and got a loan big enough to pay off my credit card balances as well as the other bills.

If big credit card payments and other monthly payments have got you down, check with Cascade Industrial Loan Company. If up to \$3,000 will put you even with the board, Cascade can probably help you, too by REDUCING your monthly outlay. To talk with
