sibilities as far as our town is concerned, " says Ingrid Lingvall who is seeking position #1 on the town council. Mrs. Lingvall's interest in town government increased when she was working on the telephone survey for the proposed sewer system. She feels that each property owner's reason for or against the sewer is of great importance and should be taken into consideration before

further developments take place. Because of the town's rapid growth, street signs and numbers on the houses would be of great help to everyone. The disappearance of some old fire hazard, would be another improvement to Forks.

Mrs. Lingvall would like to see a broader communication between the people, the council and also the county. A native of Sweden, Mrs.

Lingvall has lived in the States for 20 years and in the Forks area since 1964. She resides in Mansfield Addition with her husband Paul and three children. "In my work for the Forks

Forum, I am in daily confact with people, and I fee! that this is important for a council Lingvall. She adds that she is always willing to listen and be of service to the community, and the town needs a woman on the council.

### LETTERS TO THE EDITOR

Editor,

Sure the Indian people should be in on the school board; why not? There's not that many educated Indians that can do so, so let who ever it might be do so.

Discrimination: That's the way the white man is. If it were only white man on earth it would be wonderful. Don't cry discrimination to us, we're not down South.

This is our land, too. There's plenty of white people who eat stink salmon eggs with eels. Becky James

#### Editor,

I would like to commend Lena Fletcher for her excellent expose on early Indian life. It was somewhat interesting. Unfortunately, the rest of her material, pertaining to the "mythical claim" of racial discrimination in Forks High School, was in very bad taste --- for an Indian. Eut since you are not a member of this noble race. I suppose it might have been in "good" taste --- for a white man (or woman, as this case may be).

Racial discrimination is not a myth---it is a fact. No matter how hard you try, it always manages to creep up on you. The worst thing that can happen, is that it might hit you on the head. Even a "good Christian" town like Forks may become infested with this undesirable element. Instead of letting it grow to gigantic proportions, why not east it

But, of course, I'm just one of those long-haired, white "radicals" who believes in equality for all men, regardless of race, creed or color. Bull! I'm also a human being --- and I FEEL! However, just the same, I'm not an Indian --- and neither are you, Mrs. Fletcher. Perhaps that's why their demands seem so "unreasonable". The red man has been a defeated race for many years; now, they want to stand on their own two feet Who can blame them? We have been their constant reminder of a past that should have been buried long ago.

Our Lord said that all mankind (not just white man or black man or red man) would dominate over the Earth. Therefore, the "gap" must be closed so that everyone will have an equal opportunity at life.

I respect your age and your wisdom, Mrs. Fletcher, so please try to respect mine. Thank you.

Climb aboard and travel with us and the King family; mother, father, Mark and Kathy. The King family is traveling by car from Massachusetts to New Mexico.

We have visited New York City, and many points west.

We have studied, maps of many kinds and filmstrips, movies, library books and pictures have helped us learn about different kinds of maps.

The children have made maps of the school room and school building. They have traced the route of the King's on a United States map.

Traveling is fun in the third grade room with twnety-six children and Mrs. Swalling.

### PRE-SCHOOL

Kindergarten was the first topic of discussion at the meeting of pre-school PTA, October 12. President Pat Hammell explained the stiuation with the kindergarten, how it had been started years ago by interested mothers and supported through the years by pre-school PTA. In the last few years preschool PTA has concentrated on setting up the co-operative preschool, and given little attention to the kindergarten, as it was supposed to be under the jurisdiction of the regular PTA. But many things that the kindergarten has needed have been neglected, so the pre-school group decided in favor of once again supporting the kindergar-

Later in the meeting the kindergarten teachers, Mrs. Ron Thompson and Miss Cindy Nevitt, were introduced. Mrs. Thompson gave a very informative talk, explaining what they were trying to achieve with the children and different ways they went about it. She outlined the schedule the children use at school, and invited mothers or interested persons to come up and observe when ever they like.

The pre-school co-op will have to move from the old Junior High building by the 1st of November and the executive board will do their best to find a suitable building for the co-op to use. Mothers will be notified by phone of the new location. The third co-op class that the preschool is organizing will have to wait until they are settled in a new building.

The possibility of preschool constructing their own building was brought up and a committee to look into the matter was appointed. On the committee are Reggie Adrian, Karen Winney, Karole Lee and Janeen Kelm.

ITT Rayonier invites you to try our tree farms

Trees aren't the only crop that well-managed forest lands provide - on tree farms, you'll find deer, elk and other wildlife. So, besides growing trees for products, providing payrolls, and paying taxes, tree farms furnish outdoor recreation at its best.

ITT Rayonier's South Harbor Tree Farm in Pacific County, Grays Harbor Tree Farm in Grays Harbor and Jefferson Counties, and Clallam Tree Farm in Clallam and Jefferson Counties total some 350,000 acres of forest land. Nearly all of it will be open to sportsmen during the 1971 hunting season.

Stop by any ITT Rayonier office. Master maps will be on display showing in detail tree farm roads, rivers and streams. Gate locations and controlled access areas also will be shown.

Closed areas will be few. Some roads must be closed or travel restricted because of logging

or other operational reasons. These danger areas will be marked by signs in the field and on master maps. For the protection of all hunters, we ask that such areas be avoided.

Pocket-size hunting maps also are available free at all ITT Rayonier offices. If you can't stop by, drop us a line and we'll mail you one.

### LETTER TO

PARENTS

The following open letter to parents from Forks High School Principal Mr. Gene Coate is the first in a series to keep you informed of juniorsenior high school situations with a sincere desire for improved communication between the school and the community.

Dear Parent, The 1971-72 school year is off to a good start. Our goal ---keep it that way. We need your help. The purpose of this letter, and others which are to follow, is to help keep you, informed about school weakness es and strengths; about problem and solutions; about defeats and victories. We hope that you, the parent, and we the school, will be able to form a strong and lasting partnership -- a part nership that will work for a

children. One problem which we are working very hard to solve at the junior-senior high school is the problem of attendance. You know that it is very important that pupils attend classes regularly --- otherwise they fall behind, receive makeup work, become frustrated and either "tuneout" or "dropout", WE WANT TO PREVENT BOTH.

positive influence upon your

Board of Education policy states that the only valid exp. cuse for students being absent

during a regular school day is illness. However, the Board and the Staff realize that occasions will arise when a parent may wish his child to be absent from school for reasons other than illness. You can help us by letting us know in advance when you plan to take your child out of school for reasons other than illness; this gives us an opportunity to plan class activities and assignments more intelligently. We would hope that such occasions would not occur more than twice or three times during a school year. Our goal: A QUALITY EDUCA-

Many students find it necessary and convenient to drive their own automobiles to school; and, if you sanction your child's driving to school, we invite and encourage our students to do so. We ask only that pupils not use their automobiles during the noon period. If you wish your child to use his or her automobile during noon period on some special occasion please give us your written authorization.

TION FOR EVERY PUPIL!

We firmly believe that junior and senior high school students are old enough to accept a goodly measure of responsibility for operation of the school. To the credit of you, their parents, by an overwhelming majority our students have accepted responsibility and surpassed our highest hopes. For instance, students now change classes without being regimented by bells; they also have redecorated their student lounge; and, they are serving on student-faculty com- served. mittees. We are proud of our students and want to compliment you, their parents.

If you are unhappy with our operation or, if you want to give us a pat on the back or a kick in the pants or, maybe you would just like to drop in and say hello why not plan to visit us here at school sometime

soon. We would enjoy having the opportunity to get acquaint-

State Game Protector Jim Aggergaard checked 75 hunters in the North Fork Calawah and Bonidu area with 7 deer. Twelve additional deer were taken from this area but were not checked.

An average number of opening day hunters were out Saturday but things slowed down somewhat

Deer hunting should improve this year over last due to the population build up since the drastic winter of 1968-69. A special doe season will open for one day the 30th of October in specified areas. Check game pamphlet. This doe season has come about due to the supposedly large buildup of deer in some of the lower brush areas.

The elk population should also be up from last season as they, too, are rebuilding from the
