The dark waters of Cedar Creek drift on toward Abbey Island and the blue waters of the Pacific. Drift logs stand boldly against the potential powers of the sea as they await the high tides combined with the high waters of Cedar Creek, which will carry these rulins to a new resting place somewhere along the shores of the Pacific. ----By Lonnie Archibald

### HOSPITAL

VOLUME 61

REPORT For the week ending midnight November 19, 1972, the number of patients admitted was 7 discharged 12, outpatient vists were 138. The hospital ambulance corps responded to 6 calls. The Regional Medical Program sent two representatives to the hospital on November 15, 1972 to evaluate the hospital sCoronary Care Unit. The visitors were Sandra Miksche, nurse

consultant for the Washington State Heart Association, and Nancy White, the Nursing Coordinator for the regions Heart and Health. Technolgy Pro-Charles Dodge from Medicare called on the hospital on Nov. 14,1972 to assist in any bil ling problems. Mr. Dodge visits every hospital in the

cock, International Farm Youth Exchange Delegate from the state of Washington to Argenrecently moved from Forks, Washington to Selah. He is IFYE Committee. John is now on his way home to

Washington.) It's really delicious. Dear Friends: What is a barbecue? Hamburgers, potato salads, and someone in a chef's hat and apron forth. But the traditional asado burning steaks?' Argentina's is based in Argentina's folktraditional meal is a barbecue called an "asado," and is a bit different from its American counterpart.

The asado has its origins in the days of the "gauchos.:" These legendary cowboys of Argentina's past roamed the plains of the pampas herding wild cattle introduced by the Spaniards in the 1500's. Since the cattle had no owners, it was legal to "hunt" up to 10,000 during one's life without special permission. Three products were important: the grease, tongue, and hide. The

meat had no value since there

in that era. Thus, a typical ...

sight was a mound of carcasses

and a band of gauchos around

was no refrigerated transportation

a fire roasting freshly killed Today the "true" gaucho. just like the "true" cowboy, is somewhat different from his predecessor. He may still wear bombachas -- a really wide pair of trousers -- and carry aknife, but he also knows how to drive a truck or tractor as well as ride a horse. But, just as in the U.S. the legneds of bygone days live on. The Argentine asado is not only a barbecue., a partv. and anoccasion for celebrating but a link to the past. I can say with great authority that asados are a time for

good eating and plenty of fun. I was told that if you serve only barbecued meat and little else, enought meat should be pur-\_\_ chased for two pounds per guest. But this ratio is usually cut in half when served with typical regional dishes. Ot course, the asado is accompanied by lots of bread and wine since a meal is not a meal without those two essential ingredients. My first asado was in Western Argentina next to the Andes mountains in th province of San Juan. The Sanjuaninos are famous for their empandas -- a crescent-shaped pastry filled with ground meat, spices, olives, onion, and a bit of hardboiled egg. Now I'm in northeast Argentina and

the regional dish is locro-- a
